9. Deduction of Income Tax from Dividend under Section 150 of the Income Tax Ordinance, 2001 ("Income tax Ordinance"):

The rates of deduction of withholding tax for Filers and Non-Filers as prescribed under Section 150 of the Income Tax Ordinance 2001, are as under:

| S.No. | Nature of Shareholder | Rate of Deduction |
|-------|----------------------------------|-------------------|
| 1 | Filers of income tax return | 15% |
| 2 | Non - filer of income tax return | 30% |

To enable the Company to make tax deductions on the amount of cash dividend at 15% instead of 30%, shareholders are requested to please check and ensure Filer status from Active Taxpayers List (ATL) available at FBR website <https://www.fbr.gov.pk> as well as ensure that their CNIC/Passport number has been recorded

by the participant/Investor Account Services or by Share Registrar (in case of physical shareholding). Corporate entities (non-individual shareholders) should ensure that their names and National Tax Numbers (NTN) are available in ATL at FBR website and recorded by respective Participant/Investor Account Services or in case of physical shareholding by Company's Share Registrar.

Withholding tax on Dividend in case of Joint Account Holders

Members who have joint shareholdings held by Filers and Non-Filers shall be dealt with separately and in such particular situation, each account holder is to be treated as either a Filer or a Non-Filer and tax will be deducted according to his/her shareholding.

If the share is not ascertainable then each account holder will be assumed to hold equal proportion of shares and the deduction will be made accordingly. Therefore, in order to avoid deduction of tax at a higher rate, the joint account holders are requested to provide the below details of their shareholding to the Share Registrar of the Company latest by the Annual General Meeting date.

| Folio / CDC A/c No. | Name of Shareholder | CNIC | Shareholding | Total Shares | Principal / Joint Shareholder |
|------------------------|------------------------|------|--------------|--------------|-------------------------------------|
|------------------------|------------------------|------|--------------|--------------|-------------------------------------|

Valid Tax Exemption Certificate for Exemption from Withholding Tax

A valid tax exemption certificate is necessary for exemption from the deduction of withholding tax under Section 150 of the Income Tax Ordinance, 2001. Members who qualify under Clause 47B of Part IV of the Second Schedule to the Income Tax Ordinance, 2001 and wish to seek an exemption must provide a copy of their valid tax exemption certificate to the Shares Registrar prior to the date of commencement of Book closure otherwise tax will be deducted according to the applicable law.

12. Deposit of Physical Shares into CDC Accounts

As per Section 72 of the Companies Act, 2017 all existing companies are required to convert their physical shares into book-entry form within a period not exceeding four years from the date of commencement of the Companies Act, 2017.

The Securities & Exchange Commission of Pakistan through its circular # CSD/ED/Misc./2016-639-640 dated March 26, 2021 has advised the listed companies to pursue their such members who still hold shares in physical form to convert their shares into book-entry form.

We hereby request all such members of Al Abbas Sugar Mills Limited who are holding shares in physical form to convert their shares into book-entry form at the earliest. They are also suggested to contact the Central Depository Company of Pakistan Limited or any active member/stockbroker of the Pakistan Stock Exchange to open an account in the Central Depository System to facilitate the conversion of physical shares into book-entry form.

Members are informed that holding shares in book-entry form has several benefits including but not limited to; _

- Secure and convenient custody of shares
- Conveniently tradeable and transferable
- No risk of loss, damage or theft
- No stamp duty on transfer of shares in book-entry form
- Seamless credit of bonus or right shares

We once again strongly advise members of the Company, in their best interest, to convert their physical shares into book-entry form at the earliest.

CHAIRMAN'S REVIEW REPORT

It is my privilege to present this review of **Al-Abbas Sugar Mills Limited's** performance for the fiscal year ended September 30, 2025. This report underscores our key achievements and the pivotal role of the Board of Directors in steering management toward sustainable value creation for all stakeholders.

Pakistan's economy encountered formidable headwinds this year, including the lingering impacts of catastrophic floods and elevated headline inflation. Yet, encouraging signs of recovery are emerging: the exchange rate has stabilized under prudent government oversight, interest rates have moderated in tandem with subsiding inflationary pressures, and political uncertainties are steadily easing. These developments provide a more predictable foundation for business operations.

Against this backdrop, Al-Abbas Sugar Mills Limited delivered robust profitability—a clear reflection of the astute leadership provided by our Chief Executive Officer. His forward-thinking strategies and decisive actions not only navigated the volatility but also capitalized on opportunities, demonstrating the Company's inherent resilience. Equally commendable is his stewardship in embedding exemplary corporate governance, which has cultivated a pervasive ethos of integrity, professionalism, and accountability across our operations.

Looking ahead, we remain optimistic that, under the Chief Executive's continued guidance, the Company is primed to sustain profitability even in turbulent markets. Our strategic priorities center on solidifying Al-Abbas as Pakistan's premier producer of refined sugar and ethanol, through innovation, efficiency, and market expansion. By the Grace of Almighty Allah, we were honored with our sixth consecutive Corporate Excellence Award from the Management Association of Pakistan. This prestigious recognition validates our unrelenting pursuit of superior corporate standards and governance excellence within the sugar sector.

The Board conducted its annual self-evaluation for the year under review, concluding that the overall effectiveness of the Board and its committees remains strong and aligned with best practices.

Our independent Internal Audit function, grounded in a risk-based methodology, continues to play a vital role in safeguarding operations. Quarterly reports from Internal Audit are rigorously reviewed by the Board Audit Committee, enabling proactive identification of enhancement opportunities and focused attention on critical priorities. This disciplined approach fortifies our risk management and operational integrity.

As Chairman, I am deeply committed to cultivating a Board environment that thrives on transparent, inclusive dialogue and diverse viewpoints from senior management. We prioritize adherence to all applicable regulatory frameworks and codes, while empowering our leadership team to pursue decisions that deliver enduring value to stakeholders over short-, medium-, and long-term horizons.

True to our values, the Company invests meaningfully in employee welfare, prioritizing safe, healthy, and supportive work environments that empower our people to excel.

On behalf of the Board, I extend profound appreciation to our exceptional employees, whose dedication and ingenuity propel our progress. We are equally grateful to our shareholders, customers, suppliers, bankers, partners, and broader stakeholder community for their steadfast trust and collaboration. As we embrace the opportunities and challenges of the coming year, the Board is energized and resolute in charting a prosperous course forward.

Muhammad Suleman Chawla
Chairman
Karachi: January 02, 2026

DIRECTORS' REPORT

In the name of Almighty ALLAH, the Most Benevolent and Compassionate, the Directors are pleased to present this report along with the Company's audited financial statements for the year ended September 30, 2025.

OVERVIEW OF ECONOMY

The year under review marked a crucial phase of transition from acute crisis management to gradual macroeconomic recovery for Pakistan. The economy exhibited clear signs of stabilization, successfully navigating the near-debt default crisis of early 2023. This stability was underpinned by the successful conclusion of multiple reviews under the International Monetary Fund (IMF) program. Country's foreign reserves, significantly improved, bolstering currency stability and investor confidence. Inflation, brought under control from previous highs, although recent climate-related shocks (floods) have created renewed supply-side pressures. Essential stability was fostered at the federal and provincial levels. This political continuity helped alleviate uncertainty and strengthened the foundation for future economic growth. The economy remains highly susceptible to external shocks, particularly severe climate events and volatility in global commodity prices. Overall, the Pakistani economy is now on a firmer footing, but continued commitment to structural reforms is essential to ensure this recovery is inclusive and sustainable.

INDUSTRY OVERVIEW

The Pakistani sugar industry during the review period (2024-25 season) was characterized by significant volatility, exacerbated by structural inefficiencies, policy inconsistencies, and an ill-advised influx of low-quality imports at premium prices, which strained domestic supplies and fueled price fluctuations.

Pakistan's sugar consumption is expected to reach 6.6 million tons, driven by population growth and industrial demand from the food and beverage sectors. The demand and supply were at play during this period leading to lifting the domestic prices which have shown stability particularly during the second half of the year.

For the 2025-26 season, the sugar industry in Pakistan is projected to see an increase in production, with the United States Department of Agriculture (USDA) estimating an output of approximately 6.6 million metric tons, representing a 13.79% rise compared to the previous year.

Furthermore, sugar consumption in Pakistan is forecasted to continue rising, driven by population growth and increased demand from the food processing sector. Overall, while the sugar industry faces challenges, such as regulatory pressures and fluctuating global prices, the outlook for 2025-26 remains cautiously optimistic.

KEY HIGHLIGHTS OF THE COMPANY'S FINANCIAL PERFORMANCE

| | 2025 (Rupees in thousand) | 2024 (Rupees in thousand) |
|-----------------------------------|------------------------------|------------------------------|
| Profit before taxation | 1,856,927 | 1,625,591 |
| Taxation | (586,565) | (74,909) |
| Profit after taxation | 1,270,362 | 1,550,682 |
| Basic earnings per share (Rupees) | 73.17 | 89.31 |

Despite the multifold increase in taxation charge, your Company by the Grace of Almighty Allah has still secured reasonable profit for the year. These results were achieved despite challenges like persistent increases in raw material and utility prices, logistical obstacles, higher supply chain costs, and ongoing inflation.

REVIEW OF BUSINESS

The Company operates state-of-the-art sugar and ethanol facilities, committed to producing high-quality sugar and ethanol products driven by process excellence and innovation. Throughout the year, the Company successfully exported its products to various regions, including Asia, Europe and Africa.

**DIVIDENDS AND APPROPRIATION**

The Company is firmly committed to maximizing shareholder value and delivering sustainable long-term returns. At the Board of Directors meeting on January 02, 2026, a final cash dividend of 130% (Rs. 13 per share) was recommended. This final dividend is in addition to the interim dividends of 370% (Rs. 37 per share) that have already been distributed. As a result, the total dividend for the fiscal year ended September 30, 2025, will amount to Rs. 868.115 million, or Rs. 50 per share. Approval for this final dividend will be sought at the upcoming Annual General Meeting scheduled for January 28, 2026.

The impact of the final cash dividend is not reflected in these financial statements. The allocation approved by the Board is as follows:

(Rupees in thousands)

| | |
|--|-----------|
| Profit after taxation | 1,270,362 |
| Un-appropriated profit brought forward | 6,439,794 |
| Final dividend 2024 @ Rs. 25/share | (434,058) |
| Interim dividends 2025@ Rs. 37/share | (642,406) |
| Gain on remeasurement of defined benefit obligation - net of tax | 12,645 |
| Realized gain on sale of investment at fair value through OCI | 5,336 |
| Available for appropriation and Un-appropriated profit carried forward | 6,651,673 |

**SEGMENT RESULTS**

The following details pertain to the operations within the Sugar, Ethanol, Storage Tank Terminal, Power, Chemical, and Alloys segments:

SUGAR SEGMENT

This year, the provincial government has not issued any notification setting minimum purchase price of the sugarcane as per requirement of IMF in order to de-regulate the commodity.

Operational Performance:

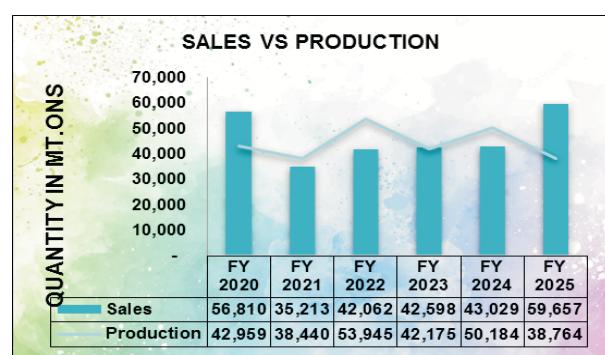

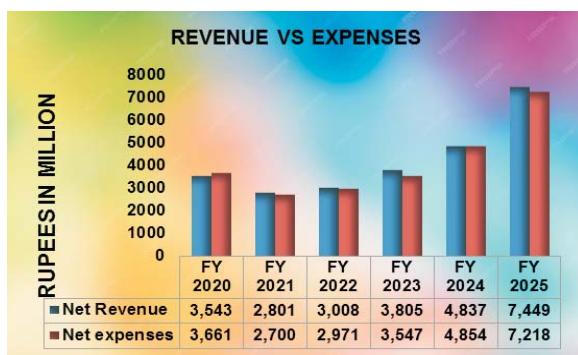

| | 2025 | 2024 |
|------------------------------------|--------------------------|-------------------|
| Date of start of season | November 21, 2024 | November 12, 2023 |

| Recovery (%) | 9.62 | 10.26 |
| Production from sugarcane(M. Tons) | 38,764 | 50,184 |
| Sales (M. Tons) | 59,657 | 43,029 |

Financial Performance:

| | 2025 | 2024 |
|---------------------------------|--------------------|-------------|
| Sales | 7,449,238 | 4,836,875 |
| Cost of Sales | (6,848,224) | (4,360,382) |
| Gross profit | 601,014 | 476,493 |
| Distribution Cost | (73,734) | (16,189) |
| Administrative Expenses | (118,592) | (106,031) |
| Operating segment results | 408,688 | 354,273 |
| Other operating expenses | (67,580) | (33,924) |
| Finance cost | (145,143) | (314,534) |
| Other income | 253,205 | 12,292 |
| Profit before levy and taxation | 449,170 | 18,107 |
| Levy and taxation | (217,879) | (35,373) |
| Profit after taxation | 231,291 | (17,266) |

During the review period, the sugar segment delivered robust revenue growth of 54%, propelled by elevated sales volumes amid favorable market dynamics. Finance costs declined sharply by 53.8%, benefiting from a lower discount rate and enhanced cash flows that improved liquidity.

Our sugar pricing strategy remains anchored in supply demand fundamentals, ensuring competitive positioning in a volatile environment. While these factors coupled with reduced financial burdens supported operational momentum, segment profits were predominantly bolstered by the receipt of long pending export freight subsidies.

**ETHANOL SEGMENT****Operational Performance:**

| | 2025 | 2024 |
|-----------------------------------|---------------|--------|
| Production (MT) - Unit - I and II | 40,126 | 43,603 |
| Sales (MT) | 36,425 | 47,291 |

Financial Performance:

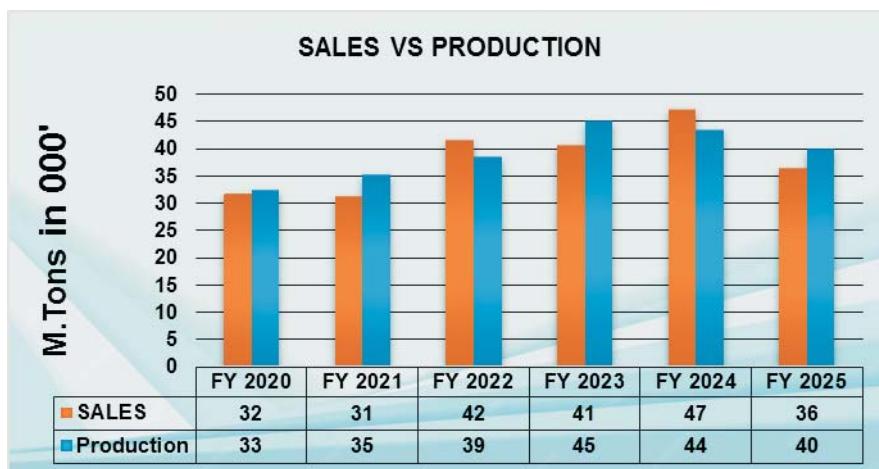

| | 2025 (Rupees in thousand) | 2024 |
|---------------------------------|-------------------------------------|------------------|
| Sales | 8,107,468 | 11,398,163 |
| Cost of Sales | (5,903,238) | (8,233,703) |
| Gross Profit | 2,204,230 | 3,164,460 |
| Distribution Cost | (573,237) | (1,197,030) |
| Administrative Expenses | (82,322) | (72,901) |
| Operating segment results | 1,548,671 | 1,894,529 |
| Other operating expenses | (121,766) | (111,900) |
| Finance cost | (86,140) | (194,389) |
| Other income | 422,209 | 199,753 |
| Profit before levy and taxation | 1,762,974 | 1,787,993 |
| Levy and taxation | (681,599) | (194,037) |
| Profit after taxation | 1,081,375 | 1,593,956 |

Post-tax profits in the ethanol segment declined by 32.12%, primarily due to a softening in average sales prices amid external pressures. Notably, the European Union's suspension of GSP+ tariff preferences for Pakistani ethanol effective June 19, 2025 eroded export competitiveness and contributed to downward price momentum in key markets.

Molasses production, intrinsically linked to sugar output, faced constraints from subdued sugarcane yields, curtailing availability and heightening competition among distilleries. This scarcity not only tightened supply but also elevated input costs. Nevertheless, our Chief Executive Officer demonstrated strategic foresight by securing a significant volume of molasses at favorable rates, effectively shielding margins from broader inflationary trends.

To counter these dynamics, management refined the ethanol sales portfolio, emphasizing higher-margin channels. This included a deliberate shift toward Drum and ISO deliveries, which saw increased prioritization, while reliance on lower-yield bulk sales moderated slightly year-over-year enhancing overall profitability resilience.

OTHER REPORTABLE SEGMENT

Operations in the Chemical, Alloys, and Power segments were strategically suspended during the review period in response to escalating fuel and electricity costs, allowing the Company to preserve capital and redirect resources toward core, higher-margin activities.

Our storage tank terminal, licensed as a customs public bonded warehouse for hazardous materials-including ethanol and petroleum products has proven instrumental in supporting export logistics. Ethanol from our production facilities is efficiently stored here to facilitate timely order fulfillment. Following the completion of renovation works, capacity utilization has steadily risen, enhancing throughput and operational agility.

During this year, a loss of Rs. 42.306 million was recorded in the other reportable segment, in contrast to the Rs. 26.008 million loss incurred in the previous year.

Future Outlook

Sugar Segment

The 2025-26 season holds promising potential for Pakistan's sugar industry, particularly in value-added segments like ethanol production. Nonetheless, sustained performance will hinge on favorable climate patterns, proactive government policies, and effective resource stewardship. A strategic emphasis on diversification and sustainability remains pivotal to fortifying the sector's resilience and ensuring enduring profitability.

Sugar production is projected to rise by 13.8%, reaching 6.6 million metric tons, buoyed by modest expansions in sugarcane acreage and yield improvements.

Initial crop surveys indicate modest growth in regional sugarcane output, largely from increased cultivation areas. We anticipate a more balanced supply-demand equilibrium in the year ahead, enabling domestic production to fully satisfy national needs and potentially generate a surplus. This could foster fairer value distribution among stakeholders, enhancing sector-wide equity. To capitalize on these opportunities, our Company is actively investing in cane-growing initiatives, prioritizing quality enhancements to elevate recovery rates and drive superior productivity.

Ethanol Segment

The 2025-26 outlook for Pakistan's ethanol industry remains challenging, constrained by intensifying supply constraints and heightened competition that could impede production and market expansion. Key headwinds include the escalating difficulty in sourcing high-quality molasses-a core feedstock-amid reduced availability from subdued sugarcane yields. Compounding this, major molasses suppliers are pivoting into ethanol production

themselves. This year, two new entrants have further crowded the domestic market, amplifying rivalry and upward pressure on input costs.

Export dynamics exacerbate these pressures: the European Union's exclusion of ethanol from GSP+ tariff preferences, effective June 2025, has severely eroded price competitiveness in a vital market, rendering production and sales increasingly unviable. Additionally, the USD/PKR exchange rate's relative stability—while beneficial for broader economic steadiness—has diminished profitability margins for export-focused operations by curbing forex gains. This marks the first full fiscal year under the normal tax regime for export income, supplanting the prior 1% final withholding tax on proceeds, which will further compress net earnings.

Amid these headwinds, our CEO's steadfast commitment to operational excellence shines through, particularly in fortifying the molasses supply chain by preemptively securing the maximum required volume at competitive rates ahead of the November 2025 crushing season, insulating against shortages and enabling more reliable production planning and cost predictability.

While the segment's trajectory is undeniably arduous, our proactive strategies position us to weather these challenges and pursue selective growth opportunities in value-added applications.

Other Reportable Segment

The renovation of our bulk storage tank terminal was successfully completed during the review period, enabling the Company to lease available capacities to new tenants and optimize underutilized assets. After a prolonged hiatus, this segment is poised to resume its positive contribution to overall profitability, bolstering revenue diversification and operational efficiency.

The production facilities for the chemical, alloys, and power segments have been temporarily suspended due to current business conditions. A decision on when to resume operations will be revisited once there is a noticeable improvement in these conditions. The company remains vigilant and will assess market trends and economic indicators to determine the right time to restart production, ensuring optimal operational efficiency and profitability.

Overall

Our management team is adeptly equipped to steer through the uncertainties of the current economic landscape. Embracing strategic agility as our cornerstone, we have implemented a suite of adaptive measures designed to drive enduring growth. These initiatives undergo rigorous, periodic evaluations to counter evolving pressures—such as escalating costs and shifting market forces, while fortifying our trajectory toward sustained success.

In an era of economic flux, our leadership's nimbleness and proactive stance will prove indispensable in upholding operational excellence and advancing our expansion goals.

We are steadfastly optimistic about the Company's trajectory, anticipating robust advancements in revenue, profitability, and liquidity in the years ahead. This confidence stems from our proven resilience in surmounting obstacles, underpinned by a resilient financial foundation.

CORPORATE SOCIAL RESPONSIBILITY

Corporate social responsibility (CSR) represents a company's commitment to creating a positive impact on society that goes beyond its primary business activities. Increasingly, companies recognize that their role in society extends past the pursuit of profit and encompasses a broader duty to address pressing social needs. This responsibility encourages businesses to actively participate in improving the welfare of the communities in which they operate.

Over the past year, the company has taken significant steps toward supporting the health sector, demonstrating its dedication to community well-being. By investing in health initiatives, the company contributes to creating healthier communities, enhancing the quality of life for local populations, and supporting goals aligned with sustainable development. Such CSR efforts not only provide immediate support to those in need but also generate lasting benefits that strengthen societal structures, build trust, and enhance the company's reputation. In fostering this connection with the community, the company reinforces a cycle of positive impact that benefits both society and its own long-term success.

A company's commitment to corporate social responsibility (CSR) in the health sector highlights its dedication to societal well-being, reflecting a holistic approach that transcends mere financial success. By prioritizing health initiatives, the company demonstrates a vision that aligns corporate goals with a sense of social duty, actively contributing to a healthier, more prosperous future. This focus not only supports community welfare but also strengthens the foundation for sustainable development and long-term positive impact. Through CSR in the health sector, the company underscores its role as a responsible corporate citizen, aiming to foster a resilient society where both the business and the community can thrive.

EFFECT OF COMPANY'S OPERATIONS ON THE ENVIRONMENT

The company is steadfast in its commitment to fostering a healthy environment by actively reducing the environmental impact of its operations. This dedication includes strict adherence to environmental standards across all production facilities, ensuring compliance with regulatory requirements and industry best practices. Furthermore, the company recognizes its responsibility to contribute positively to environmental sustainability, integrating eco-conscious practices into its operations. Through these efforts, the company aims to create a cleaner, safer environment while aligning its business goals with a broader commitment to environmental stewardship.

The company has installed a state-of-the-art water recycling plant, a proactive measure to support environmental sustainability and ensure the availability of safe water resources. This investment reflects a dual commitment to environmental stewardship and resource conservation, recognizing the importance of preserving essential natural resources for the future. In addition to water recycling, the company is also focused on minimizing its carbon footprint. By actively pursuing carbon reduction strategies, the company acknowledges its role in protecting the environment from the ecological impact of its operations and aligns with global efforts to address climate change.

The company routinely reviews its policies to ensure alignment with industry best practices, striving to uphold the highest standards in its field. This approach guarantees that its operational guidelines reflect the latest benchmarks and regulatory requirements. To reinforce these standards, the company provides comprehensive health and safety training for employees, equipping them to work effectively and safely within these established protocols. This emphasis on continuous training supports a culture of safety and ensures full compliance with the company's guidelines, prioritizing the well-being of employees and the integrity of operations.

ACHIEVEMENTS

The company has reached an exceptional milestone by winning the Corporate Excellence Award from the Management Association of Pakistan (MAP) for the sixth consecutive year. This prestigious award, granted by MAP, recognizes listed companies that excel in corporate governance and management practices, setting a benchmark for quality and leadership within the industry. The sustained achievement of this award underscores the company's consistent dedication to operational excellence, innovative management, and high standards in corporate practices.

BOARD'S EVALUATION

In line with the 2019 Code of Corporate Governance, the Board has approved a robust evaluation framework to

assess its performance comprehensively. This framework includes the introduction of a detailed questionnaire that covers the Board's roles, objectives, and functions, alongside the company's overall performance and monitoring processes. Each director participated in this assessment by providing valuable input, allowing for a thorough evaluation of all relevant areas. This approach ensures that the Board can accurately measure its effectiveness, identify areas for improvement, and align its performance with corporate governance standards and strategic goals.

REVIEW OF CEO'S PERFORMANCE

The Board of Directors regularly conducts comprehensive evaluations of the CEO's performance, using both quantitative and qualitative metrics to ensure a holistic review. These assessments cover a wide range of Key Performance Indicators (KPIs), both financial and non-financial. The evaluation criteria include the CEO's alignment with the company's mission, the achievement of both short-term and long-term goals, and commitment to sustaining profitability, enhancing shareholder value, and ensuring strong corporate governance practices, along with compliance with statutory reporting requirements. This structured evaluation process helps ensure that the CEO's performance is aligned with the company's strategic vision and objectives.

ROLE OF CHAIRMAN AND CEO

The Chairman acts as the steward of the company, representing both the Board and its stakeholders. As the leader of the Board of Directors, the Chairman is responsible for ensuring the Board operates efficiently and effectively. In addition to overseeing the company's business development, the Chairman plays a critical role in safeguarding the company's reputation and fostering its long-term strategic direction. The Chairman is also tasked with ensuring the Board is well-composed, promoting a diverse range of perspectives across various business functions, economic outlooks, and areas of expertise. This approach helps ensure balanced decision-making and strategic insight.

The CEO plays a pivotal role in guiding the company towards its vision, mission, and long-term goals. Acting as the main conduit between the Board of Directors and the management team, the CEO ensures effective communication across both levels. Additionally, the CEO oversees the daily operations of the company, ensuring the successful execution of long-term strategies, plans, and budgets. This includes driving initiatives aimed at enhancing shareholder value and ensuring that the company's objectives are met efficiently. The CEO's leadership is essential in aligning the company's operational activities with its broader strategic vision.

The CEO also functions as the public face of the company, representing its interests to shareholders, government entities, and the wider public. As both a leader and key decision-maker, the CEO is responsible for inspiring employees, driving change within the organization, and making strategic decisions that align with the company's objectives. By leading with vision and purpose, the CEO ensures that the company is poised to meet its goals and fulfill its commitments to stakeholders, guiding the organization towards success and sustainable growth.

WHISTLEBLOWING POLICY

Aligned with the company's commitment to transparent communication, Al-Abbas Sugar Mills Limited has implemented a whistleblowing policy, for any non-conformance reporting. This policy provides employees with a secure and confidential channel to raise concerns, ensuring their protection against retaliation. As a responsible and ethical organization, the company upholds the highest standards of professionalism, integrity, and transparency. Al-Abbas Sugar Mills Limited remains dedicated to conducting its business in a manner that is fair, dependable, and ethically sound, reinforcing its commitment to honesty and accountability across all levels of operation.

DEBTS SERVICING

Your company utilizes a robust cash flow strategy that emphasizes continuous forecasting and diligent monitoring of both incoming and outgoing funds. This method ensures the company can consistently meet its financial obligations and remain agile in addressing any potential challenges. In addition, the management focuses on optimizing borrowing costs by maintaining a well-balanced mix of financing sources and managing debt structures efficiently. As a result of this careful approach, our company has maintained an impeccable record of meeting all debt obligations on time, including in the current year, with no missed payments.

CORPORATE BRIEFING SESSION

Al-Abbas Sugar Mills Limited hosted a Corporate Briefing Session (CBS) on January 28, 2025, to present the financial results for the fiscal year ended September 30, 2024. The session aimed to provide stakeholders with a comprehensive overview of the company's operational and financial performance, while also gathering feedback from shareholders. During the session, the CEO shared insights on the company's performance for the current year and discussed future prospects. The event attracted a range of participants, including investors, research analysts, fund managers, and management representatives, all of whom showed significant interest in the company's affairs. A Question & Answer session followed, providing further clarification on the topics discussed. Looking ahead, the management plans to organize another Corporate Briefing Session in January 2026, covering the fiscal year ended September 30, 2025.

MATERIAL CHANGES AND COMMITMENTS

There have been no material changes or commitments that could significantly affect the financial position of the company from the end of the fiscal year, as reflected in the financial statements, up until the date of this report.

CONTRIBUTION TO THE NATIONAL / PROVINCIAL EXCHEQUER

The Company made a total contribution of Rs. 801.085 million compared to Rs. 963.045 million in 2025 to the Government Treasury in the form of income tax, levies, excise duty, and sales tax.

PATTERN OF SHAREHOLDING AND SHARES TRADED

The statement demonstrating the shareholding pattern as of September 30, 2025, as mandated by Section 227(2)(f) of the Companies Act, 2017, is provided as an annexure to this report.

There were no transactions during the year involving the trading of the Company's shares by the Chief Executive, Directors, Substantial Shareholders, Chief Financial Officer, Company Secretary, their spouses, or minor children.

RISK MANAGEMENT FRAMEWORK

A comprehensive Risk Management Framework is fundamental to an organization's capacity to navigate uncertainties and challenges while pursuing sustainable growth and profitability. It involves a structured methodology for identifying, evaluating, mitigating, and monitoring risks across all operational areas, thereby enhancing organizational resilience and adaptability.

The Board has delegated Risk Management matters to the Audit Committee. The Company's Risk Management framework is structured to proactively identify potential risks, perform in-depth analyses, and implement preventive measures to mitigate them. By adopting a forward-looking approach to risk management, the Company engages in contingency planning to address critical risks should they arise, ensuring readiness and responsiveness to potential challenges.

The Company has identified potential risks, assessed their possible impact on the company, and developed strategies to mitigate these anticipated risks. These strategies have been applied across all levels of the organization to ensure a thorough and gap-free approach to risk management.

The primary risks and challenges faced by the company include:

- (i) The company relies heavily on the availability of sugarcane and molasses, which are essential raw materials for its operations.
- (ii) Dollar-Rupee exchange rate fluctuations present a risk; a depreciation of the Rupee could positively influence the company's profitability.
- (iii) Retaining skilled employees is critical, as they are a key asset; high turnover could adversely impact the company's growth potential.
- (iv) The company firmly believes that industrial accidents are preventable and not merely random events; they can be mitigated through proactive safety measures.

INTERNAL AUDIT AND CONTROL

The Board has established an independent internal audit function, led by a qualified professional who reports directly to the Audit Committee. The primary focus of internal auditing within the Company is to evaluate and assess the effectiveness of its internal control framework.

To ensure the adequacy of internal controls, the Board, through the Audit Committee, oversees this area closely. The committee receives detailed reports from Management, Internal Audit, and the External Auditor on the company's internal control systems and risk management protocols.

Following its review, the Board takes appropriate actions to address any significant weaknesses identified in the internal control system. This includes implementing corrective measures deemed necessary after a comprehensive evaluation of the control framework.

CREDIT RATING

The Pakistan Credit Rating Agency Limited (PACRA) has affirmed the Company's long-term entity rating at A+ and its short-term rating at A1. The "stable" outlook reflects PACRA's positive and consistent assessment of the company's financial stability and performance.

COMPLIANCE WITH THE LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

The company has meticulously adhered to all the stipulations outlined in the Listed Companies (Code of Corporate Governance) Regulations, 2019. A comprehensive statement confirming this compliance is enclosed within this Report, specifically detailed on pages 33 to 35.

ACKNOWLEDGEMENT

The Board expresses its sincere appreciation to our dedicated Management, and all employees for their steadfast commitment and hard work. Additionally, the Board acknowledges the invaluable support, guidance, and collaboration provided by all stakeholders, including financial institutions, business partners, customers, bankers, and others, whose collective contributions have greatly strengthened the Company.

SWOT ANALYSIS

STRENGTHS

A Experienced Leadership: A CEO with over 24 years of expertise in the sugar, molasses, and ethanol sectors, driving strategic vision and operational excellence.

Diversified Revenue Streams: A portfolio of integrated businesses spanning sugar, ethanol, and power generation, ensuring resilient and multifaceted income sources.

Export-Focused Ethanol Operations: 98% of ethanol production exported, capitalizing on global demand and reducing domestic market volatility.

Operational Synergies: Integrated distillery and sugar mill operations yield cost efficiencies through shared raw materials (molasses), renewable energy (bagasse for power), and versatile skilled labor.

Premium Product Quality: Ethanol renowned for superior standards, earning trust from top-tier local and international clients, including global industry leaders.

Strategic Infrastructure: Bulk storage facility adjacent to Karachi Port, enabling revenue generation via rentals or cost savings through in-house utilization.

Advanced Dhabeji Unit: Expansive facility featuring a 15 MW coal-fired power plant, state-of-the-art electric furnace, and high-capacity ferro-silicon production.

Enhanced Procurement Leverage: Strong financial standing and grower relationships foster goodwill, securing goods and services at competitive rates below industry peers.

Prudent Cost Management: Conservative fiscal policies mitigate risks, averting significant financial disruptions and preserving capital.

Optimal Capital Structure: Low gearing ratios minimize interest expenses while freeing up funds for high-yield investments, such as debt-based mutual funds.

Favorable Financing Access: Robust balance sheet and market reputation enable low-cost external funding, supporting growth initiatives.

Talented and Stable Workforce: Minimal turnover driven by comprehensive training, competitive incentives, and a culture of loyalty.

Sustainable Energy Practices: Reduced fossil fuel dependency via bagasse (a sugarcane byproduct) for power generation, lowering costs and environmental impact.

Logistical Advantages: Proximity to Karachi Port cuts finished goods transportation expenses compared to inland competitors in upper Sindh and Punjab.

National Economic Contribution: Ethanol exports generate vital foreign exchange reserves, bolstering the company's patriotic appeal and stakeholder support.

WEAKNESSES

Regulatory Constraints on Sugar Pricing: Highly regulated sugar prices disadvantage the company during supply gluts, requiring GoP approval for exports, while escalating sugarcane procurement costs erode margins.

Seasonal Volatility in Sugar Operations: Unpredictable revenue forecasting due to concentrated production in peak months contrasted with year-round sales, amplifying cash flow and pricing uncertainties.

Adverse Industry Reputation: Politically fueled inquiries and media scrutiny portray the sugar sector as a "mafia", fostering distrust from government regulators and complicating policy advocacy.

Suboptimal Sugarcane Yields: Lower per-acre productivity compared to global benchmarks, stemming from outdated farming equipment, traditional methods, and resistance to mechanization.

Inefficient Sucrose Recovery: Reduced sucrose extraction from crushed cane due to reliance on aged, unapproved varieties, exacerbated by inadequate R&D infrastructure in Sindh.

Geographic Vulnerabilities: Sugar mill situated in a sugarcane-scarce region, heightening exposure to water shortages and climate variability.

Supply Chain Dependency: Heavy reliance on external suppliers for the majority of molasses inputs, risking disruptions and cost fluctuations.

OPPORTUNITIES

Rising Domestic Demand: Pakistan's steadily increasing population growth rates will drive higher consumption of sugar as a staple food, translating into enhanced profitability if the company scales production capacity accordingly.

Lucrative Sugar Exports: With annual per-capita consumption at 27 kg among the lowest globally yet producing world-class quality sugar, Pakistan holds strong potential to access international markets and generate valuable foreign exchange reserves.

Versatile Bulk Storage Revenue: The KPT-located terminal offers substantial rental income opportunities, while enabling simultaneous storage of ethanol export inventory to bypass costly third-party fees.

R & D-Driven Agricultural Advancements: Partner with local and international research institutes to introduce modern techniques and equipment, developing high-yield, high-sucrose, drought-resistant, early-maturing sugarcane varieties and eco-friendly pesticides for mutual gains with growers.

CO2 Byproduct Monetization: Strategic investment in capture technology for CO2 gas from ethanol production could yield high-margin sales, diversifying revenue streams.

THREATS

Climate Change Vulnerabilities: Escalating extreme weather events, including droughts, heatwaves, and floods, heighten sugarcane crop damage risks, disrupting supply chains and inflating prices.

Geopolitical and Economic Turbulence: Regional instability and macroeconomic fluctuations in Pakistan expose the company to supply disruptions, currency volatility, and reduced investor confidence.

Escalating Tax Pressures: Introduction of new levies and hikes in existing rates, including the shift to standard export taxes from July 2024 (replacing the 1% final regime), plus super tax and WWF obligations, strain profitability.

Fierce Local Competition: Proximity of rival sugar mills within the company's cane procurement radius sparks bidding wars, artificially inflating sugarcane prices and complicating access to quality inputs amid rising transport costs.

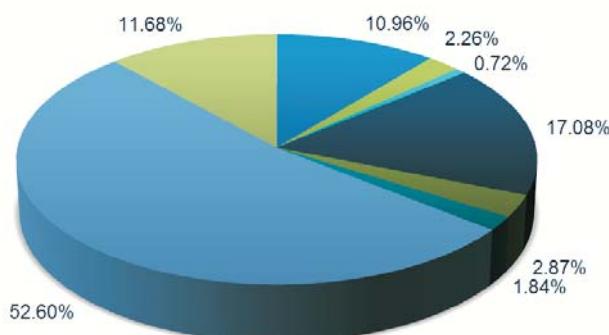

Chronic Water Scarcity: Mirpurkhas District's tail-end canal positioning downstream from the River Indus—predisposes operations to shortages, even during ample upstream flows, severely impacting water-intensive sugarcane yields at critical growth stages.

Ethanol Market Saturation: Rapid proliferation of distilleries threatens raw material availability and erodes ethanol production margins through intensified supply competition.

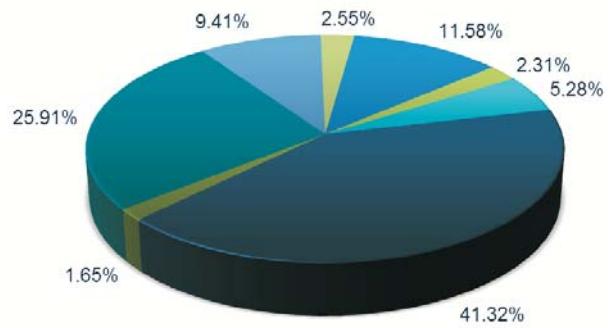

EU GSP+ Tariff Suspension: Exclusion of ethanol from EU preferential tariffs under GSP+ from June 2025 for two years diminishes export competitiveness and revenue potential in a key market.

INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF AL-ABBAS SUGAR MILLS LIMITED ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of **Al-Abbas Sugar Mills Limited** for the year ended September 30, 2025 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements, we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended September 30, 2025.

Information Other than the Financial Statements and Auditor's Report Thereon

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of Management and Board of Directors for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017(XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of Directors are responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) In our opinion, Zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

The engagement partner on the audit resulting in this independent auditor's report is Zulfikar Ali Causer.

| | b) Tank Terminal | Providing bulk storage facility | Plot 63, Oil Industrial Area, Kemari, Karachi. | October 15, 2012 |

1.3 The production facilities of chemical, alloys and power segment have been suspended temporarily in view of present business conditions.

2 BASIS OF PREPARATION

2.1 Statement of Compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards as applicable in Pakistan comprise of:

- IFRS Accounting Standards (IFRS Standards) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;

Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and

- Provisions of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from IFRS Standards or IFAS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

2.2 Basis of measurement

These financial statements have been prepared under the historical cost basis except as disclosed otherwise.

2.3 Functional and presentation currency

These financial statements are presented in Pakistan Rupees ('Rupees' or 'Rs.') which is also the Company's functional and presentation currency.

3 APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS TO PUBLISHED ACCOUNTING AND REPORTING STANDARDS AS APPLICABLE IN PAKISTAN

3.1 New accounting standards, amendments and IFRS interpretations that are effective For The Year Ended September 30, 2025

The following standards, amendments and interpretations are effective for the ended year September 30, 2025. These standards, amendments and interpretations are either not relevant to the Company's operations or did not have significant impact on the financial statements other than certain additional disclosures.

**"Effective date
(annual periods
beginning on or after)"**

| | |
|--|------------------|
| Amendments to IFRS 7 'Financial Instruments: Disclosures' - Supplier finance arrangements | January 01, 2024 |
| Amendments to IFRS 16 'Leases' - Amendments to clarify how a seller-lessee subsequently measures sale and leaseback transactions | January 01, 2024 |
| Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current | January 01, 2024 |
| Amendments to IAS 1 'Presentation of Financial Statements' - Non-current liabilities with covenants | January 01, 2024 |
| Amendments to IAS 7 'Statement of Cash Flows' - Supplier finance arrangements | January 01, 2024 |

The Company adopted the narrow-scope amendments to the International Accounting Standard (IAS) 1, Presentation of Financial Statements which have been effective for annual reporting periods beginning on or after 1 January 2024. Although the amendments did not result in any changes to accounting policy themselves, they impacted the accounting policy information disclosed in the financial statements.

The amendments require the disclosure of ‘material’ rather than ‘significant’ accounting policies. The amendments also provide guidance on the application of materiality to disclosure of accounting policies, assisting the Company to provide useful entity-specific accounting policy information that users need to understand other information in the financial statements.

Management reviewed the accounting policies and updates to the information disclosed in Note 4 Material accounting policies in certain instances in line with the amendments and concluded that all its accounting policies are material for disclosure.

3.2 New accounting standards, amendments and interpretations that are not yet effective

4 MATERIAL ACCOUNTING POLICY INFORMATION**4.1 Property, plant and equipment****4.1.1 Operating fixed assets - owned**

These are stated at cost less accumulated depreciation and impairment loss, if any, except for free hold and lease hold land, which is stated at cost.

Depreciation is charged to profit or loss, on a systematic basis over the useful life of the asset, on reducing balance method, which reflects the patterns in which the asset's economic benefits are consumed by the Company, at the rates specified in the relevant note. Assets residual value and useful lives are reviewed and adjusted appropriately at each financial year end. Depreciation on additions is charged from the month in which the assets are put to use while no depreciation is charged in the month in which the assets are disposed off. No depreciation is provided on leasehold land since the leases are renewable at the option of the lessee at nominal cost and their realizable values are expected to be higher than respective carrying values.

Depreciation method useful lives and residual values of each party of property plant and equipment that is significant in relation to the total cost of the asset reviewed, and adjusted if appropriate, at each balance sheet date.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. All other repairs and maintenance are charged to statement of profit or loss during the financial year in which they are incurred.

Assets are derecognized when disposed or when no future economic benefits are expected from its use or disposal. Gains or losses on disposals, if any, are included in statement of profit or loss.

Capital work-in-progress

Capital work-in-progress are stated at cost less impairment and significant expenditures incurred, advances made in respect of specific assets and financial charges on borrowings for financing the projects which takes substantial time for completion, until such projects are available for their intended use. Assets under capital work-in-progress are classified to the appropriate categories of property, plant and equipment, when completed and ready for intended use.

4.2 Right-of-use assets

The Company recognises a right-of-use asset at the commencement date of the lease (i.e. the date the underlying asset is available for use). Subsequently Right-of-use assets are stated at cost less any accumulated depreciation and impairment losses and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the useful life of lease as disclosed in note 8 to the financial statements.

4.3 Investment property

It is carried at its respective cost, under the cost model, less accumulated depreciation and accumulated impairment losses, if any. Depreciation is charged, on a systematic basis over the useful life of the asset, on reducing balance method, at the rate specified in note 7.

Investment Property is the property held either to earn rental income or for capital appreciation or for both, but not for sale in ordinary course of business, use in production or supply of goods or services as for administrative purpose. Former office premises which is held to earn rental income is classified under

investment property

4.4 Biological assets

Biological assets are measured at their fair value less their point of sale costs. Gain / (loss) on such measurement is recognized in statement of profit or loss. Gain / (loss) on disposal of biological asset is recognized in statement of profit or loss in the year of disposal.

4.5 Stores and spares

These are valued at lower of cost or net realizable value (NRV), less impairment if any. The net realizable value of stores and spares is determined based on replacement cost. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon up to the reporting date. Items in transit are valued at cost comprising invoice value plus other charges incurred thereon up to the reporting date.

4.6 Stock-in-trade

These are valued at lower of cost or net realizable value (NRV), less impairment if any. Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition.

Raw material is stated at the lower of weighted average cost and net realizable value.

Cost in relation to work in process and finished goods represents cost of raw material and an appropriate portion of manufacturing overheads. Cost in respect of work in process is adjusted to an appropriate stage of completion of process whereas value of bagasse is taken equivalent to net realizable value.

Cost in relation to stock of molasses held in ethanol division is valued at weighted average cost of purchased from third party.

Net realizable value signifies the estimated selling price in the ordinary course of business less the estimated cost of completion and the estimated costs necessary to make the sale.

4.7 Trade debts

These are recognised and carried initially at original invoice amount being the fair value of the consideration to be received in future. An allowance for Expected Credit Loss (ECL) is made against trade debts on the basis of lifetime expected credit loss model as explained in note 4.11 to the financial statements. The amount of provision / reversal of ECL is charged / reversed to the statement of profit or loss.

Trade debts and other receivables considered irrecoverable are written-off.

4.8 Leases

The Company assesses at contract inception whether a contract is, or contains, a lease i.e., if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Finance lease - lease liabilities

In calculating the present value of lease payments at the lease commencement date, the Company uses the interest rate implicit in the lease. In case where the interest rate implicit in the lease is not readily determinable, the Company uses its incremental borrowing rate. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments or a change in the assessment of an option to purchase

the underlying asset.

At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less lease incentives receivable (if any), variable lease payments that depend on an index or a rate (if any), and amounts expected to be paid under residual value guarantees (if any). The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company (if any) and payments of penalties for terminating the lease (if any), if the termination option is reasonably certain to be exercised. Variable lease payments that do not depend on an index or a rate are recognised as expenses in the period in which the event or condition that triggers the payment occurs.

4.9 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

4.9.1 Financial assets

Classification, recognition and measurement

Financial assets are classified into appropriate categories at amortized cost, fair value through other comprehensive income or at fair value through profit or loss. The management determines the classification of financial assets into appropriate categories based on the Company's business model for managing the financial assets and the contractual terms of the cash flows.

At amortized cost

Financial assets are measured at amortized cost when:

- The asset is held within a business model whose objective is to hold assets in order to collect contractual cash flows; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

At fair value through other comprehensive income

Financial assets are measured at fair value through other comprehensive income when:

- The asset is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- The contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

Other financial assets

All financial assets which do not fall into the first two categories are classified as fair value through profit or loss.

Initial Recognition and Subsequently Measurement

All financial assets are recognised at the time when the Company becomes a party to the contractual provisions of the instrument. Financial assets at amortized cost are initially recognised at fair value and are subsequently measured at amortized cost using the effective interest method. The amortized cost is

reduced by impairment losses, if any. Interest income and impairment losses are recognised in the statement of profit or loss.

Financial assets carried at fair value through other comprehensive income are initially and subsequently measured at fair value, with gains and losses arising from changes in fair value recognised in other comprehensive income.

Financial assets carried at fair value through profit or loss are initially recorded at fair value and transaction costs are expensed in the statement of profit or loss. Realized and unrealized gains and losses arising from changes in the fair values of the financial assets held at fair value through profit or loss are included in the statement of profit or loss in the period in which they arise.

All purchases and sales of financial assets are recognised on the trade date which is the date on which the Company commits to purchase or sell the financial asset.

Derecognition

Financial assets are derecognised when the rights to receive cash flows from the assets have expired or have been transferred and the Company has transferred substantially all the risk and rewards of ownership. On derecognition of a financial asset, in its entirety, the difference between the asset's carrying amount and the sum of the consideration received and receivable is recognised in the statement of comprehensive income.

4.9.2 Financial liabilities

All financial liabilities are recognized at the time when the Company becomes a party to the contractual provisions of the instrument. Financial liabilities are recognized initially at fair value less any directly attributable transaction cost. Subsequently to initial recognition, these are measured at amortized cost using the effective interest rate method.

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a de-recognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the statement of profit or loss.

4.10 Offsetting of financial assets and financial liabilities

Financial assets and financial liabilities are offset and the net amount is reported in the statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis or to realise the assets and settle the liabilities simultaneously.

4.11 Impairment

Financial assets

The Company assesses on a forward-looking basis the expected credit losses (ECL) associated with its debt instruments carried at amortized cost and at fair value through other comprehensive income. The impairment methodology applied depends on whether there has been a significant increase in credit risk.

For trade receivables, the Company applies the simplified approach permitted by IFRS 9, which requires expected lifetime losses to be recognised from initial recognition of the receivables.

The Company measures ECL of a financial instrument in a way that reflects:

- a) an unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;

- b) the time value of money; and
- c) reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The measurement of expected credit losses is a function of the probability of default, loss given default (i.e. the magnitude of the loss if there is a default) and the exposure at default. The assessment of the probability of default and loss given default is based on historical data adjusted by forward-looking information as described above. As for the exposure at default for financial assets, this is represented by the assets' gross carrying amount at the reporting date. Generally, credit terms range from 30 to 60 days from the date of delivery.

Non-financial assets

At each reporting date, the Company reviews the carrying amounts of its non-financial assets at each reporting date to identify circumstances indicating occurrence of impairment loss or reversal of previous impairment losses. An impairment loss is recognized in the statement of profit or loss for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell and value in use. Reversal of impairment loss is restricted to the original cost of the asset.

4.12 Provisions

Provisions are recognised when the Company has a present legal or constructive obligation as a result of past events and it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate of the obligation can be made. Provisions are reviewed at each reporting date and adjusted to reflect current best estimate.

The amount recognized as provision is the best estimate of consideration required to settle the present obligation at the end of the reporting period, taking into account the risk and uncertainties surrounding the obligation.

4.13 Foreign currency transactions and translations

Transactions in foreign currencies are accounted for in Pakistan Rupees at the rates prevailing on the date of transaction. Monetary assets and liabilities in foreign currencies are translated into Pakistani Rupees at the rates of exchange which approximate those prevailing at the reporting date. Exchange differences are recognized in the statement of profit or loss.

4.14 Unclaimed dividend

Dividend declared and remain unclaimed from the date it is due and payable.

4.15 Loans, advances, deposits, prepayments and other receivables

Loans, advances, deposits, prepayment and other receivables are carried at original amount less provision made for doubtful receivables based on a review of all outstanding amounts at the year end. Balance considered irrecoverable are written off.

4.16 Deposits and prepayments

Trade deposits and prepayments are recorded at cost which is the fair value of consideration to be received / adjusted in future.

4.17 Cash and cash equivalents

Cash and cash equivalents comprise of cash in hand, bank deposit, cheques in hand, short term highly liquid

investments and balances with bank.

4.18 Taxation and levy

4.18.1 Income Tax

Income tax expense comprises current and deferred tax. Income tax expense is recognized in statement of profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity, in which case it is also recognized in other comprehensive income or directly in equity respectively.

Current

Current tax is the expected tax payable on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using tax rates enacted or substantively enacted at the reporting date after taking into account tax credits and tax rebates. The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years.

Deferred

Deferred tax is recognized using the balance sheet liability method, on all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts appearing in the financial statements. Deferred tax liabilities are recognized for all taxable temporary differences. Deferred tax assets are recognized for all deductible temporary differences to the extent that it is probable that the temporary differences will reverse in the future and taxable income will be available against which the temporary differences can be utilized.

The carrying amount of deferred tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax assets to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, based on tax rates that have been enacted or substantially enacted by the statement of financial position date. Deferred tax is charged or credited in the statement of profit or loss and statement of comprehensive income.

Levy

The Company accounts for current tax calculated on taxable income using the notified tax rate as an income tax and any tax charged under the income tax laws which is not based on the taxable income recorded as a levy in accordance with the Guidance on Accounting for Minimum Taxes and Final taxes issued by the Institute of Chartered Accountants of Pakistan. The minimum tax and final taxes which are not calculated on the 'taxable profit' but calculated on turnover or other basis are recognized as a levy in the Statement of profit or loss under the scope of IFRIC 21/IAS37.

4.19 Staff retirement benefits

a) Defined benefit plan - gratuity scheme

The Company operates an approved funded gratuity scheme (defined benefit plan) for all its employees who have completed the qualifying period under the scheme. Contributions are made to the fund in accordance with the actuarial recommendations. The most recent valuation in this regard was carried out as at September 30, 2025, using the Projected Unit Credit Method for valuation of the scheme. Actuarial gains and losses for the defined benefit plan are recognized in full in the period in which they occur in other comprehensive income. Such actuarial gains and losses are recognized in equity as capital reserves as these will not be reclassified to statement of profit or loss in subsequent periods. Current and past service costs, gain or loss on settlement and net interest income or expense are accounted for in statement of profit or loss.

This scheme is governed by Trust Deed and Rules. All matters pertaining to this scheme including contributions to the scheme and payments to outgoing members are dealt with in accordance with the Trust Deed and Rules.

b) Employees compensated absences

The Company accounts for liability in respect of unavailed compensated absences for all its permanent employees, in the period of absence. Provision for liabilities towards compensated absences is made on the basis of last drawn basic salary. Amount equal to compensation of unavailed leaves upto a maximum of thirty days of employees at every year end is transferred to this account and paid at the retirement of employees.

4.20 Trade and other payables

Liabilities for trade and other amounts payable are carried at cost which is the fair value of the consideration to be paid in future for goods and services received.

4.21 Inter-segment pricing

Transfer between business segments are recorded at net realizable value for bagasse and storage tank terminal. However, for molasses it is recorded at weighted average purchase price.

4.22 Revenue recognition

Revenue is recognised at amounts that reflect the consideration that the Company expects to be entitled to in exchange for transferring goods or services to a customer. Revenue is measured at the fair value of the consideration received or receivable, and is recognised when performance obligation is satisfied, at a point in time, when control of goods have been transferred to a customer.

4.23 Other Income

- a. Return on bank deposits is recognized on a time proportion basis on the principal amount outstanding and the rate applicable while income from held to maturity investment is recorded using effective yield method.
- b. Markup on growers loan is accounted for in line with the recovery of the respective loan due to exigencies involved in such matters. Recognition of markup on loans considered doubtful is deferred.
- c. All gains / (losses) of securities classified as 'fair value through other comprehensive income' are included in other comprehensive income in the period in which they arise and transferred to equity at the time of disposal.
- d. Miscellaneous income is recognized on occurrence of transactions.
- e. Dividend income from investments is recognized when the Company's right to receive the dividend is established.
- f. Rental income from investment property and rental income of storage tank terminal are recorded on accrual basis. However during the year no such transaction relating to rental income on investment property occurred.

4.24 Dividend and appropriation to reserves

Dividend distribution to the Company's shareholders is recognised as a liability and appropriation to / from reserves are made in the period in which these are approved. However, if these are approved after

the reporting period but before the financial statements are authorised for issue, they are disclosed as subsequent event in the financial statements.

4.25 Contingent liabilities and assets

A contingent liability is a possible obligation that arises from past events and whose existence will only be confirmed by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. It can also be a present obligation arising from the past events that is not recognized because it is not probable that outflow of economic resources will be required or the amount of obligation cannot be measured reliably.

Contingent liabilities are not recognized but are disclosed in the notes to the accounts. When a change in the probability of an outflow occurs so that outflow is probable, it will then be recognized as provision.

A contingent asset is a possible asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company. Contingent assets are not recognized but are disclosed in the notes to the accounts when an inflow of economic benefits is probable. When an inflow is virtually certain, an asset is recognized.

4.26 Segment reporting

For management purposes, the activities of the Company are organized into one reportable operating segment. The Company operates in the said reportable operating segment based on the nature of the products, risks and returns, organizational and management structure, and internal financial reporting systems. Accordingly, the figures reported in the financial statements are related to the Company's only reportable segment.

4.27 Borrowings and related costs

Borrowings are recognised initially at fair value net of transaction cost incurred. Borrowings are subsequently carried at amortised cost. Any difference between the proceeds received (net of transaction cost) and the redemption value is recognised in the statement of profit or loss over the period of the borrowings using the effective interest method.

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the respective asset. All other borrowing costs are expensed in the year in which they occur. Borrowing cost consists of interest and other costs that an entity incurs in connection with the borrowing of funds.

4.28 Contract liabilities

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognised as revenue when the Company performs under the contract.

4.29 Share capital

Ordinary shares are classified as equity and recognized at their face value. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

4.30 Earnings per share

The Company presents basic and diluted earnings / (loss) per share (EPS / LPS) for its ordinary shares. Basic EPS / LPS is calculated by dividing the profit / loss attributable to ordinary shareholders of the Company by the weighted average number of ordinary shares outstanding during the period. Diluted EPS / LPS is determined by adjusting the profit / loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares.

5 Critical Accounting Estimates and Judgments

The preparation of financial statements in conformity with accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. Estimates and judgments are continually evaluated and are based on historic experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may differ from these judgments, estimates and assumptions. Revisions to accounting estimates are recognised in the year in which the estimate is revised and in any future years affected. In the process of applying the Company's accounting policies, management has made the following estimates and judgments which are significant to the financial statements:

- Assumptions and estimates used in determining the recoverable amount, residual values and useful lives of property, plant and equipment - 4.1 and 6
- Assumptions and estimates used in determining the recoverable amount, residual values and useful lives of investment property - 4.3 and 7
- Assumptions and estimates used in determining the provision for slow moving stores and spares - 4.5 and 12
- Assumptions and estimates used in writing down items of stock in trade to their net realisable value - 4.6 and 13
- Assumptions and estimates used in calculating the provision for doubtful trade debts - 4.7 and 14
- Assumptions and estimates used in calculating the provision for doubtful loans, advances and other receivables - 4.15, 15 and 18
- Assumptions and estimates used in the recognition of current and deferred taxation - 4.18, 41 and 32
- Assumptions and estimates used in accounting for staff retirement benefits 4.19 - 18.2
- Assumptions and estimates used in disclosure and assessment of provision for contingencies - 33

7.1 This represents office premises building owned by the Company. This property is not occupied by the Company and is held for capital appreciation and earning rental income. The Company carries this investment property under cost model as its fair value cannot be reliably determined as there is no active market for this property and a recent comparable transaction for identical property is also not available. Further, the application of valuation techniques is not supposed to provide a reliable measure of fair value. The possible range of estimates within which the fair value is highly likely to lie is Rs. 55 million to Rs 65 million.

18.1 The Company received a Show Cause Notice from the Assistant Commissioner (Unit-08), Sindh Revenue Board, Karachi, citing a shortfall in Sindh Service Tax payments totaling Rs. 15.575 million for the financial years 2013-14, 2014-15, 2015-16, and 2016-17. Subsequently, an Order-in-Original was issued, demanding payment of Rs. 31.929 Million (the principal amount plus a penalty of Rs. 16.354 million). The Sindh Revenue Board directly recovered Rs. 3.336 million by debiting the Company's Bank account. In response, the Company appealed to the Commissioner (Appeals) in Karachi, which granted a Stay Order. As a precautionary measure, the Company paid Rs. 0.558 million (25% of the principal amount) to prevent further recovery actions by the Sindh Revenue Board under Section 66(1)(f). The case remains pending before the Commissioner (Appeals) in Karachi, and ongoing hearings are underway.

18.2 Defined benefit plan - related party

As stated in note 4.19, the Company operates a defined benefit plan i.e. an approved funded gratuity scheme for all its permanent employees subject to attainment of retirement age and minimum service of prescribed period. Actuarial valuation of the scheme is carried out every year and the latest actuarial valuation was carried out as at September, 2025 using projected unit credit method. The disclosures made in notes to 18.2.12 are based on the information included in that actuary's report.

18.2.8 Other liability - Payable to gratuity fund - related party

The Company operates a policy that its employees can obtain loans from Al-Abbas Sugar Mills Limited Employees Gratuity Fund Trust - a related party (the fund). The Company recovers these loans from employees through monthly deduction from their salaries and offsets the same against the net receivable from the Fund.

18.2.9 Principal actuarial assumptions

The latest actuarial valuation for gratuity fund was carried out as at September 30, 2025 using the Projected Unit Credit Method (PUCM). The following are significant assumptions used for the actuarial valuation:

| | 2025 | 2024 |
|--|------------------|-----------|
| Discount rate | 11.75% | 12.00% |
| Expected rate of increase in salary | 10.75% | 11.00% |
| Average retirement age of the employee | 60 years | 60 years |
| Withdrawal rates | Age based | Age based |

18.2.10 Year end sensitivity analysis on defined benefit obligation

Significant actuarial assumptions for the determination of the defined obligation are discount rate and expected rate of salary increase. The sensitivity analysis below have been determined based on reasonable possible changes of the respective assumptions occurring at the end of the reporting period, while holding all other assumptions constant:

| | Impact on defined benefit obligation | | |
|-----------------|---|-------------------------------|--|
| | Changes in assumption % | Increase in assumption | Decrease in assumption (Rupees in thousand) |
| Discount rate | 1 | 49,502 | 54,931 |
| Salary increase | 1 | 54,869 | 49,515 |

18.2.11 Expected charge for the year 2025-26 will be Rs. 8.242 million.

18.2.12 Risks associated with the fund

Investment Risk: The risk of the investment underperforming and being not sufficient to meet the liabilities.

Final Salary Risk: The risk that the final salary at the time of cessation of service is greater than what the company assumed. Since the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increases.

Withdrawal Risk: The risk of actual withdrawals experience is different from assumed withdrawal probability. The significance of the withdrawal risk varies with the age, service and the entitled benefits of the beneficiary.

Mortality Risk: The risk that the actual mortality experience is different than that of assumed mortality. This effect is more pronounced in schemes where the age and service distribution is on the higher side.

18.3 The High Court of Sindh, through its Order dated September 24, 2024 directed the Nazir to return the amounts deposited by the respective sugar mills in proportion to the allocation detailed in the joint statement. Following the conclusion of the financial year, the Company has received Rs. 20.662 million from the Nazir of the High Court of Sindh, which has been duly accounted for in these financial statements.

Initially, an intra-court appeal, HCA No. 66 of 2023, was filed challenging the Order dated March 7, 2023, passed by a Single Judge of the High Court of Sindh in Suit No. 145 of 2023. This Order had declared the allocation of a 2,500 MT sugar export quota for each sugar mill in Sindh, as facilitated by the Cane Commissioner, to be illegal. Subsequently, on March 9, 2023, the High Court amended the impugned Order, providing that the alleged quota of 21,807 MT held by JDW Sugar Mills Limited, Deharki Sugar Mills (Private) Limited, and JK Sugar Mills Limited would be preserved under the supervision of the Cane Commissioner and the Pakistan Sugar Mills Association (PSMA). Additionally, all sugar mills were authorized to export 1,500 MT of sugar each.

In its Order dated May 30, 2023, the Court further held that the 32 sugar mills in Sindh were entitled to retain proceeds from the sale of 570 MT of sugar each. Concurrently, the Court directed that proceeds from the sale of 493 MT of sugar per mill, calculated at a rate of Rs. 96.1 per kg, be deposited with the Nazir of the High Court. In compliance with this Order, the Company has deposited Rs. 47.387 million with the Nazir of the High Court of Sindh.

- 27.1** The management has recorded an amount of Rs. 141.139 million pertaining to sugarcane purchases for the crushing season 2014-15. This recording was made prudently, considering notifications issued by the Cane Commissioner Sindh on November 07, 2014, and December 09, 2014. This was done after adjusting the amount paid by the Government of Sindh to the growers through Sugar Mills, in alignment with the interim decision of the High Court of Sindh. However, these notifications have faced a challenge by the Pakistan Sugar Mills Association and other Sugar Mills in the Honorable Supreme Court of Pakistan. Initially, the Supreme Court dismissed the case against the Company through its Order dated September 13, 2023. Nevertheless, the Company, alongside other sugar mills, has filed a Review Petition in the Supreme Court of Pakistan, which is currently pending.

27.2 As per the regulations outlined in the Sugar Factories Control Act, 1950, the Company is mandated to remunerate a quality premium to sugarcane growers. This premium, charged at a rate of 50 paisa per kilogram of sugarcane crushed, is applicable for every 0.1 percent of sucrose recovery exceeding the benchmark of 8.7 percent.

The Company, in conjunction with other sugar mills, contested the imposition of this quality premium before the High Court of Sindh. However, the Court ruled unfavorably against the sugar mills. Subsequently, the Company appealed this decision to the Supreme Court of Pakistan and secured a Stay Order against the judgment of the Court."

The Supreme Court of Pakistan concluded the appeal in 2019 and issued an Order. Over the period from 1998-99 till current date, the Company has made payments for the quality premium. These payments were calculated by factoring in the additional or excess amounts paid beyond the minimum support price stipulated by the Provincial Government.

In 2019, the Sindh Growers Alliance filed C.P - 3458 of 2019 against the Company and other sugar mills in the High Court of Sindh, seeking the enforcement of the Apex Court Order. The Honorable Court resolved the case through a consensually agreed Order, stipulating that the Cane Commissioner of Sindh would individually assess each notification and determine the sucrose recovery rate in accordance with each notification. As per this Order, growers were instructed to submit their claims to the mills, and the mills were required to verify these claims within a two-month period, following which payments would be processed. Given that the Company had already made excess or additional payments to the growers, it holds the belief that no further liabilities will arise. As a prudent measure, the Company has refrained from reversing this liability in its financial records.

- 27.3** The fixation of the minimum price for sugarcane during the 2017-18 crushing season, set by the Government of Sindh, was contested in the High Court of Sindh. In their decision on January 30, 2018, in cases C.P No. 8666 of 2017 and 7951 of 2017, the High Court, after obtaining consent from all stakeholders/petitioners, instructed the sugar mills to compensate growers at Rs.160/- per 40kg for the 2017-18 crushing season, pending the final decision of the Supreme Court in Civil Appeal 48/2015. The Supreme Court, due to the non-appearance of the Respondents Counsel, dismissed the case as infructuous through an Order dated September 13, 2023.

The Company, among other sugar mills, submitted a Review Petition in the Supreme Court of Pakistan. The matter remains pending before the court. Therefore, acknowledging the liability's contingent nature, which hinges on any directives from the Supreme Court of Pakistan revising the previously paid price to the cane growers, the Company recorded a provision of Rs. 363.586 million.

27.4 Contract liabilities

During the year, the performance obligations underlying the opening contract liability of Rs. 52.945 million were satisfied in full. Accordingly, the said liability was recorded as revenue during the year.

- 27.5** This represents security deposit received from a customer on a written agreement and utilizable for Company's business which is in compliance with Section 217 of Company's Act, 2017.

The CIT decided the case in the Company's favor and set aside the ITO's order. The Department then challenged this decision before the Income Tax Appellate Tribunal, which upheld the CIT's verdict.

Subsequently, the Department filed a reference application before the Honourable High Court of Sindh, where the matter remains pending. As per the tax advisor, the anticipated outcome of the reference is expected to be favorable for the Company.

33 CONTINGENCIES AND COMMITMENTS

33.1 Contingencies

- a) The Karachi Water and Sewerage Board has raised a demand of Rs. 20.608 million relating to water, sewerage, fire, and conservancy charges. The Company has challenged this demand before the Honourable High Court of Sindh, Karachi, on the grounds that the Board is not providing any such services. The Court has suspended the enforcement of the Demand Notice, and the matter is currently under hearing. The suit has been transferred to Senior Civil Judge East Karachi during the year under new suit no. 8512/2025. Based on the legal advisor's opinion, management remains confident of a favorable outcome; therefore, no provision has been recorded in these financial statements.
- b) In 2013, Mr. Suleman Lalani, a non-executive and minority Director of the Company, filed Suit No. 281 in the Honourable High Court of Sindh at Karachi. During the year due to recent amendment in the relevant law, this Suit pending before High Court stand transferred in the District Court, a new number 5673 of 2025 has been assigned.

This suit was against the Company, its former Chief Executive, and eight others. Allegations within the suit centered around mismanagement in the Company's operations, including claims of the former Chief Executive and others siphoning off and diverting Company funds. The main relief sought in the suit includes the retrieval of Rs. 236.716 million of the Company's funds, as well as the expenses incurred by the plaintiff in filing the suit. Additionally, the plaintiff seeks the appointment of a receiver, the execution of a forensic audit of the Company, and the removal of its former Chief Executive. In response to the mentioned allegations, the Company and its management have refuted all claims made by the plaintiff. The suit is currently at the stage of hearing of the applications.

On March 08, 2021, Mr. Suleman Lalani submitted an application under Order 1 Rule 10, in conjunction with Section 151 of the Civil Procedure Code (C.P.C.) 1908. In this application, he requested the inclusion of the current Chief Executive Officer in the ongoing Suit. He argued that the CEO was exerting influence on the Board for personal gains, aiming for unjust enrichment at the Company's expense.

The last date of hearing was December 15, 2025. The legal counsel for the Company has indicated that due to the uncertainty surrounding the litigation's outcome, making a definitive prediction at this stage is not feasible. Nevertheless, the Company's management holds the belief that no adverse implications are likely to materialize from the suit.

Additionally, Mr. Lalani filed another Civil Miscellaneous Application (CMA) No. 9973 of 2013, requesting the restraint of the Company's Board of Directors from specifically endorsing any investments in Javedan Corporation Limited (JCL), a distinct and unrelated public limited Company. Currently the mentioned Civil Miscellaneous Application was pending before the Senior Civil Judge East Karachi.

The Court had restrained the defendant from making any decisions regarding investments in JCL until the suit reaches its final resolution. Additionally, the Court directed the Securities and Exchange Commission of Pakistan (SECP) to regard the complaint filed in this context as a complaint under Section 263 of the previously enacted Companies Ordinance, 1984 (now encompassed within the Companies Act, 2017). Consequently, the SECP was tasked with investigating the Company's affairs and submitting a report on the matter.

The Company has contested the aforementioned Court Order before the Division Bench of the Honorable High Court of Sindh via an appeal numbered HCA-124. This appeal has resulted in the suspension of a segment of the High Court's Order specifically concerning the directive for the SECP to conduct an investigation into the Company.

In the same context, the SECP had issued an Order pursuant to Section 231 of the Companies Ordinance, 1984. The Company challenged this order through CP. No. D-1990/2013 before the High Court of Sindh. Subsequently, the Company obtained an Order from the Court preventing any coercive action based on the SECP's directive. During the hearing of HCA No. 124/2013, the appellant requested that the case CPD-1990/2013 be considered alongside appeal No. HCA 124/2013. The Interim Order previously granted by the High Court of Sindh was modified, directing the Company to present all its accounts before the SECP. However, the Court instructed the SECP not to take any final action against the Company. In adherence to the orders from the Honorable Court in CP No. D-1990/2013 and HCA No. 124/2013, the Company ensured compliance. The appeal is presently awaiting a decision from the Division Bench, and according to the legal advisor's perspective, the Company stands a fair chance of success in this case.

- c) The Federal Government issued a notification implementing a reduced Federal Excise Duty (FED) rate of 0.5% on the local supply of sugar. This concession applies to the quantity of sugar exported by sugar mills, as allocated by the Economic Coordination Committee in its meeting held on January 10, 2013, and is subject to the terms and conditions specified in S.R.O. 77(1)/2013 dated February 07, 2013. The Company availed this reduced rate from January 10, 2013, believing the relief to be effective from that date. However, the Department maintained that the concession was applicable only from the date of the SRO. Consequently, a demand of Rs. 85.450 million was raised for the period preceding the issuance of the SRO. In the financial year 2015–16, the Company challenged this demand before the Appellate Tribunal, which decided the matter in the Company's favor. The Commissioner Inland Revenue subsequently filed Miscellaneous Applications seeking rectification of the Tribunal's order; however, these applications were dismissed. The Department has again filed a reference application before the Honourable High Court of Sindh, where the matter remains pending. Based on the tax advisor's opinion, the outcome of this reference is expected to be favorable for the Company.
- d) In the case filed by Mr. Mureed Ali Shah against the Federation of Pakistan and Others in the High Court of Sindh, Karachi, dated May 14, 2018, C.P. No. 3823 of 2018, he requested the withdrawal, cancellation, or cessation of cash freight subsidies provided by the Federal Government to sugar mills in Sindh for sugar export. His contention revolved around his belief that Sindh Sugar Mills had violated Condition No. VI of the Cabinet's Economic Coordination Committee (ECC) approval, ECC 96/19/2017, dated September 14, 2017. This condition specified that "After November 2017, it will also be necessary for the mills to start crushing at full capacity throughout the crushing season to become eligible for exports". Additionally, Mr. Mureed Ali Shah requested that the extra cash payments sanctioned by the Sindh Cabinet during their meeting on December 04, 2017, should be reimbursed by all sugar mills situated in Sindh. Furthermore, he sought an injunction restraining the Federal Government from implementing the aforementioned ECC approval until the disposition of this petition. The case is currently being heard and is pending before the Honorable High Court of Sindh.

Given that the Company has adhered to Condition No. VI of the ECC approval, legal counsel anticipates a favorable outcome in this case. Compliance with the specified condition strengthens the Company's position in the legal proceedings.

- e) The Company received a notice dated January 18, 2022, under Section 37 of the Sales Tax Act, 1990, from the Additional Director, Directorate of Intelligence and Investigation (Inland Revenue), Karachi, demanding payment of Rs. 42.735 million in sales tax relating to sales made to a sugar broker during the years 2016-17, 2017-18, 2018-19, and 2019-20.

In response, the Company filed Petition C.P. D-1183 of 2022 before the Honourable High Court of Sindh, Karachi, and obtained a Stay Order restraining the Department from taking any adverse action. The matter is currently under hearing. Based on the opinion of the legal counsel, the outcome is expected to be favorable for the Company.

- f) In the fiscal year 2021, the Federal Board of Revenue (FBR) initiated tax audits for the tax years 2015, 2016, 2018, and 2019 under Section 177 of the Income Tax Ordinance, 2001. Despite the Company's submission of all required records and supporting evidence, the audit concluded unfavorably, resulting in adverse Orders passed under Sections 122(1) and 122(4) of the Income Tax Ordinance, 2001. Based on arbitrary and unreasonable observations, the Department raised tax demands amounting to Rs. 8.639 billion and imposed penalties of Rs. 7.404 billion under Section 182(2) for the respective tax years.

The Company filed appeals before the Commissioner Inland Revenue, Karachi, challenging these assessments; however, the Commissioner upheld all additions made by the Department. Aggrieved by this decision, the Company has further appealed the matter before the Appellate Tribunal Inland Revenue.

The Appellate Tribunal Inland Revenue reviewed the matter and deleted additions of Rs. 24.966 billion out of the total additions of Rs. 25.070 billion. The remaining additions of Rs. 104.86 million were remanded back to the Department for further examination.

The Department (CIR) subsequently reconsidered the apportionment of expenses, which affected the NTR income of Rs. 649.055 million. In addition, the Department has filed an appeal before the High Court of Sindh against the Order of the Appellate Tribunal, and the appeal is currently pending a hearing.

As the underlying tax demand is unsupported by facts and proper documentation, and in light of the tax

advisor's assessment that the Orders are unlikely to withstand appellate scrutiny, the Company has not recorded any provision against these demands in the financial statements.

- g) The Competition Commission of Pakistan issued a show cause notice, No. 103/2020 dated November 05, 2020, stemming from an inquiry initiated under Section 37(1) of the Act. The purpose was to investigate potential anti-competitive activities within the sugar industry, specifically examining any violations of Section 3 and 4 of the Act by the Pakistan Sugar Mills Association and its member entities. Allegations included actions contributing to price hikes, cessation of crushing during the 2019-20 crushing season, and holding back on a sugar tender initiated by the Utility Store Corporation. The Company participated in various hearings and responded to the notice through its legal counsel.

On August 06, 2021, the Competition Commission of Pakistan issued an Order, where two out of four members, including the Chairperson, concluded that the Pakistan Sugar Mills Association and its associated entities were *prima facie* involved in violating Section 4 of the Competition Act 2010. The Order highlighted that the Enquiry Committee discovered evidence suggesting collusive or collective decision-making that contributed to sugar shortages and price hikes. However, the Commission determined that there was an absence of any individual or collective dominant position in the relevant market. Therefore, the Commission did not find a case of abuse of dominance under Section 3 of the Act.

The Competition Commission of Pakistan, with the Chairperson and one member in agreement, found the tender dated March 20, 2010, to be a *prima facie* violation of Section 4(1) read with Section 4(2)(c) of the Act. This indicated that the Pakistan Sugar Mills Association and its members potentially made a collective decision regarding the division and allocation of the quantity to be supplied. Consequently, the Commission imposed a penalty of Rs. 358.243 million for collective decisions on export quantities from 2012 to 2020 and an additional penalty of Rs. 50 million for involvement in the Utility Store Corporation tender in 2010.

However, due to two members of the Commission holding a differing opinion, a deadlock emerged regarding the determination of the issue for which the penalty was imposed. To break the deadlock, the Chairperson exercised a second or casting vote in favor of imposing the penalty. As a result, the Order dated August 13, 2021, was passed against the Company.

The Company initiated legal action through Suit No. 2273 of 2021, seeking a permanent injunction and disputing the legality and legitimacy of the casting vote Order dated 13-08-2021 issued by the Competition Commission of Pakistan. The Honorable High Court of Sindh suspended the operations of the challenged Orders dated 06-08-2021 and 13-08-2021. Subsequently, the Competition Commission of Pakistan issued show cause notice No. 34/2021 dated 08-10-2021, founded on the Order dated 13-08-2021.

In response, the Company filed Suit No. 2381 of 2021 in the High Court of Sindh, contesting the legality of the Show Cause Notices as they were based on an allegedly illegal Order. The Court, through an Order dated 14-10-2022, suspended the operations of these notices. Furthermore, in an Order dated 13-06-2022, the Single Judge modified the interim Order by granting injunction specifically regarding the casting vote decision of the chairman/chairperson, contingent on the Company securing 50% of the respective penalties with the Nazir of the High Court.

The Company lodged an appeal (HCA No. 235 of 2022) with the Division Bench of the Honorable High Court of Sindh. In this appeal, both contesting parties jointly submitted a statement requesting: (a) Setting aside the Order dated 13-06-2022 issued by the learned Single Judge in Suit No. 2273. (b) Releasing any bank guarantee submitted by the Company and returning it to the Plaintiff. (c) Ensuring that the Competition Commission of Pakistan refrains from initiating recovery proceedings against the Plaintiff in Suit No. 2273 until the final decision on the pending appeals before the Competition Appellate Tribunal.

During the year the Competition Appellate Tribunal in Appeal No. 37/2022 in its Order dated 21-05-2025 set aside the Chairperson's casting vote in adjudicatory proceedings and remanded the matter to the Commission that either the Chairperson or any other member not signatory to either of the opinions hear the appellants.

Aggrieved with the Competition Appellate Tribunal, the Company also filed Civil Application number 462 of 2025 before Supreme Court of Pakistan wherein the Honorable Supreme Court vide its Order dated 18-09-2025 passed the judgement that the impugned Order dated 21.05.2025, insofar as it rests upon the Chairperson's casting vote in adjudicatory proceedings, was rightly set aside by the Tribunal. However, the portion of the impugned order directing that either the Chairperson or any other member not signatory

to either of the opinions hear the appellants is set aside, and the matter is remanded to the Tribunal to decide the same afresh within ninety days.

The Competition Appellate Tribunal in its Order dated 28-10-2025 allowed to withdraw the pending application 37/2022 as Supreme Court as well as Competition Appellate Tribunal already set aside the Casting Vote.

The Competition Commission of Pakistan has filed a review Petition before the Supreme Court of Pakistan which is currently pending.

- h) The DCIR-LTO-Karachi issued a Show Cause Notice dated January 27, 2022, under Section 11(2) of the Sales Tax Act, 1990, asserting a tax liability of Rs. 7.899 million along with default surcharges and penalties for allegedly inadmissible input under Section 8B. Additionally, a tax liability of Rs. 10.893 million was claimed under Section 73(4) in respect of sales made to unregistered persons, covering the period from July 2021 to November 2021. The Company submitted a response to the notice. Subsequently, the DCIR-LTO issued Order-in-Original No. 14/49/2022 dated March 2, 2022, raising a total demand of Rs. 19.732 million, which includes a penalty of Rs. 0.940 million, along with applicable default surcharges.

The Company, through its tax advisor, filed an Appeal along with a Stay Application before the Commissioner Inland Revenue (Appeals). However, the CIR (Appeals) upheld the Order of the DCIR-LTO. The Company subsequently escalated the matter to the Appellate Tribunal, which issued a favorable decision, resulting in the deletion of the demand. The Department (CIR) has filed an appeal before the Honourable High Court of Sindh, Karachi. Based on the opinion of legal counsel, the outcome is expected to be favorable for the Company.

- i) The Deputy Commissioner Inland Revenue (DCIR) issued Order-in-Original No. 13/49/2022-23 dated September 23, 2022, raising a demand of Rs. 106.932 million, along with applicable default surcharges and penalties, in relation to discrepancies between the sales figures reported in the annual income tax return and the annual sales tax return for the tax year 2018.

From the management's perspective, the DCIR did not recognize that the income tax period for the year 2018 covers October 01, 2016, to September 30, 2017, whereas the sales tax period considered in the Order-in-Original is from July 01, 2017, to June 30, 2018. As a result, the reported differences in sales amounts arise solely due to the mismatch between these distinct periods.

The Company contested this ruling before the Commissioner Inland Revenue (Appeals), resulting in the reversal of the DCIR's order. The Department subsequently filed an appeal against the CIR's decision with the Appellate Tribunal Inland Revenue. Based on the evaluation of the tax consultant, the anticipated final outcome is expected to be favorable for the Company.

33.2 Commitments

Bank guarantees of Rs. 94.711 (2024: Rs. 54.6) Million have been issued by the banking companies on behalf of the Company in favour of customers and suppliers.

41.5 Income tax returns of the Company have been filed up to tax year 2025 which is considered to be deemed assessment. However, the Commissioner of Income tax may, at any time during the period of five years from the date of filing of return, select the deemed assessment for audit.

41.6 The Company filed petition WP No. 3449 of 2023 challenging the imposition of Super Tax for the tax year 2023 before the Islamabad High Court. The Court granted a stay and issued an order on November 11, 2023, linking the case to the ruling in WP No. 4027 of 2022. In that ruling, the Court excluded from the Super Tax calculation all classes of income subject to final tax under other provisions of the Ordinance. Additionally, it disallowed the exclusion of brought-forward depreciation, business losses, and amortization allowances otherwise available to taxpayers under the Ordinance.

Subsequently, through its order dated March 15, 2024, the Islamabad High Court accepted the petition and

restrained the tax department from recovering the Super Tax. The Federal Board of Revenue (FBR) later filed Appeal No. 710 of 2024 before the Islamabad High Court, contesting the judgment dated March 15, 2024, issued by the Single Bench. Nonetheless, as a prudent measure, the Company has recorded a provision for Super Tax for the tax year 2023.

- 41.7** The Additional Commissioner Inland Revenue (ACIR) issued an order for the tax year 2014, demanding Rs. 28.751 million in income tax due to purportedly incorrect apportionment of expenses between NTR and FTR, disallowed expenses/cash withdrawals, and unaccounted brought forward tax losses. The Company sought rectification from the ACIR and subsequently appealed to the Commissioner Appeals Inland Revenue. The Commissioner Appeals provided relief by allowing expenses/cash withdrawals up to Rs. 26 million but upheld disallowances amounting to Rs. 140 million against the Company. The Company appealed the disallowance of Rs. 140 million to the Tribunal. Interestingly, the Commissioner Appeals also filed an appeal against the granted relief of Rs. 26 million. The tax advisor of the Company foresees a favorable outcome, hence no provision has been accounted for in these financial statements, assuming the situation will resolve positively for the Company.
- 41.8** In the year 2020, the Company underwent an audit for the tax year 2017 under Section 177 of the Income Tax Ordinance, 2001. After completing the audit, the concerned Officer Inland Revenue issued an amended order under Section 122(l), which acknowledged the absence of taxable income due to the availability of carried forward losses from previous tax years. However, there was an oversight in not allowing or determining the actual losses to be carried forward and providing proper credit for taxes paid, amounting to Rs. 20.978 million. To rectify this mistake, a rectification letter was issued under Section 221 of the Income Tax Ordinance, 2001, allowing for the inclusion of actual losses to be carried forward. Despite this rectification, the refund of Rs. 20.978 million is still pending and awaiting approval.

46 FINANCIAL INSTRUMENTS AND RELATED DISCLOSURES

The Company's activities expose it to a variety of financial risks: credit risk, liquidity risk and market risk (interest / markup rate risk and price risk). The Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the financial performance.

The Board of Directors has overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies. The board of directors reviews and agrees policies of managing each of these risk which are summarized below:

46.1 Credit risk

Credit risk represents the accounting loss that would be recognized at the reporting date if counterparties fails to meet its contractual obligation and it mainly arises from balances with banks and financial institutions, trade debts, loans, advances, deposits and other receivables. The credit risk on liquid funds is limited because the counter parties are banks with reasonably high credit ratings. Out of the total financial assets of Rs. 2.066 (2024: Rs. 1.115) billion, the financial assets which are subject to credit risk amounted to Rs. 2.066 (2024: Rs. 1.115) billion.

To manage exposure to credit risk in respect of trade debts, management performs credit reviews taking into account the customer's financial position, past experience and other factors. Sales contracts and credit terms are approved by the Chief Executive Officer. Where considered necessary, advance payments are obtained from certain parties. Sales made to exporters are secured through letters of credit. The management set out a maximum credit period in respect of certain customers as well in order to reduce the credit risk.

Concentration of credit risk arises when a number of counter parties are engaged in similar business activities or have similar economic features that would cause their abilities to meet contractual obligation to be similarly effected by the changes in economic, political or other conditions. The Company believes that it is not exposed to major concentration of credit risk.

The carrying amount of financial assets represents the maximum credit exposure before any credit enhancements. The maximum exposure to credit risk before any provisions at the reporting date is:

The Company believes that no impairment allowance is required in respect of loans because these are not past due. The Company is actively pursuing for the recovery of debts and the Company does not expect any of its employees failing to meet their obligations.

Trade debts

Break-up of trade debts into export and local is disclosed in note number 14 of the financial statements.

The maximum exposure to credit risk before any credit enhancements and loss allowance for trade debts at the reporting date by segment is:

| | Note | 2025 (Rupees in thousand) | 2024 |
|---------------------|------|------------------------------|----------------|
| Sugar | | 67,510 | 623,040 |
| Ethanol | | 95,580 | 46,993 |
| Chemical and alloys | | 9,635 | 9,635 |

Expected credit loss (ECL)

| 2025 | | 2024 | |
|-------------------|-----|-------------------|-----|
| Gross trade debts | ECL | Gross trade debts | ECL |

The aging of trade debts at the reporting date was:

| | | | | |
|---------------|----------------|---------------|----------------|---------------|
| 1-30 days | 134,040 | 34,600 | 670,033 | 29,050 |

46.2 Liquidity risk

Liquidity risk reflects the Company's inability in raising funds to meet commitments. Liquidity risk arises because of the possibility that the Company could be required to pay its liabilities earlier than expected or difficulty in raising funds to meet commitments associated with financial liabilities as they fall due. The Company's approach to manage liquidity is to ensure, as far as possible, that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or at the risk of Company's reputation. The Company's liquidity management involves projecting cash flows and considering the level of liquid assets necessary to fulfill its obligation, monitoring statement of financial position liquidity ratios against internal and external requirements and maintaining debt financing plans.

The following are the contractual maturities of the financial liabilities:

| 2025 | | | | | | |
|--|------------------------|--------------------|----------------------|------------------|----------------------------|----------------------|
| Carrying amount | Contractual cash flows | Six months or less | Six to twelve months | One to two years | Two to five years and over | (Rupees in thousand) |

| 3,934,947 | 3,936,190 | 2,869,042 | 1,046,922 | 1,317 | 18,909 | |

The Company manages liquidity risk by maintaining sufficient cash and ensuring the fund availability through adequate credit facilities. At September 30, 2025, the Company has Rs. 4.511 (2024: Rs. 4.677) Billion available and unutilized short term borrowings limit from financial institutions and also has Rs. 1346.627 and Rs. 7,312.771 (2024: Rs. 84.993 and Rs. 1,142.489) Million being balances at banks and short term investments. Based on the above, management believes the liquidity risk is insignificant.

46.3 Market risk

Market risk is the risk that the value of the financial instrument may fluctuate as a result of changes in market interest rates, foreign exchange rates or the equity prices due to a change in credit rating of the issuer or the instrument, change in market sentiments, speculative activities, supply and demand of securities and liquidity in the market. The Company is exposed to foreign exchange risk, interest rate risk and other price risk as follows:

46.3.1 Foreign Exchange Risk

Foreign exchange risk represents the risk that the fair value of the future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Foreign exchange risk arises mainly from future economic transaction or receivables or payables that exist due to transactions in foreign currency. The Company is exposed to foreign exchange currency risk mainly on ethanol denominated in US Dollars. Approximately 8.45% from sugar segment and 95.79% from ethanol segment is denominated in currencies other than Pak Rupees which forms 50.35% of the total gross revenue of the Company. The Company's exposure to foreign currency risk for US Dollars is as follows:

| | 2025 | 2024 |
|--------------------------------|----------------------|-----------------|
| | (Rupees in thousand) | |
| Foreign debtors | 88,227 | 46,745 |
| Advance from foreign customers | (182,038) | (38,965) |
| Export finance scheme (EFS) | - | (47,958) |
| Net exposure | <u>(93,811)</u> | <u>(40,178)</u> |

The following significant exchange rate has been applied:

| | Average rate | | Reporting date rate | |
|------------|---------------|--------|---------------------|--------|
| | 2025 | 2024 | 2025 | 2024 |
| USD to PKR | <u>280.84</u> | 279.39 | <u>281.51</u> | 277.91 |

Sensitivity analysis

At reporting date, if the PKR had strengthened by 10% against the USD with all other variables held constant, pre-tax profit for the year have been higher / (lower) by the amount shown below:

| | 2025 | | 2024 | |
|---------------------------------|----------------------|--|-------|--|
| | (Rupees in thousand) | | | |
| Effect on profit or loss | | | | |
| US Dollars | <u>9,381</u> | | 4,018 | |

The weakening of the PKR against USD would have had an equal but opposite impact on the pre tax profit.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Company.

46.3.2 Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the financial instruments will fluctuate because of changes in market interest rate . The interest rate exposure of the Company arises from long term financing, short term borrowings, loans to growers, short term investments and bank balances.

At the reporting date the interest rate profile of the Company's significant interest bearing financial instruments was as follows:

| | 2025 | 2024 |
|----------------------------------|------------------|------------------|
| Fixed rate instruments | | |
| Financial assets | <u>7,313,783</u> | <u>1,143,605</u> |
| Variable rate instruments | | |
| Financial assets | <u>1,167,603</u> | <u>47,782</u> |
| Financial liabilities | <u>3,064,683</u> | <u>2,572,749</u> |

Fair value sensitivity analysis

Company holds short term investments of Rs. 7,312.771 million at fair value through profit or loss and the related gain is reported in note 40.

Cash flow sensitivity analysis for variable rate instruments.

A change of 100 basis points in interest rates at the reporting date would have increased/ decreased profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2024.

| | Statement of profit or loss 100 bp | |
|--------------------------|---------------------------------------|-----------------|
| | increase | decrease |

| As at September 30, 2024 | | |
| Cash flow sensitivity | <u>478</u> | <u>(478)</u> |

The sensitivity analysis prepared is not necessarily indicative of the effects on profit for the year and assets / liabilities of the Company.

| Cash flow sensitivity | <u>(30,647)</u> | <u>30,647</u> |
| As at September 30, 2024 | | |
| Cash flow sensitivity | <u>(25,727)</u> | <u>25,727</u> |

46.3.3 Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk). The Company is exposed to price risk with respect to equity investment. Investments are monitored through continuous trend prevailing in the market for which an investment committee has been setup to take appropriate decision.

A 10% increase / decrease in share prices at year end would have increased / decreased the unrealized gain on remeasurement of fair value investments through OCI as follows:

| | Share prices 10% (Rupees in thousand) | |
|---|--|-----------------|
| As at September 30, 2025 | | |
| Investment at fair value through profit or loss | <u>39,919</u> | <u>(39,919)</u> |
| Fair value through OCI | <u>39,919</u> | <u>(39,919)</u> |
| As at September 30, 2024 | | |
| Investment at fair value through profit or loss | <u>20,023</u> | <u>(20,023)</u> |
| Fair value through OCI | <u>20,023</u> | <u>(20,023)</u> |

46.4 Fair value of financial instruments

Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction.

Financial assets which are tradable in an open market are remeasured at the market prices prevailing on the statement of financial position date. The carrying values of all other financial assets and liabilities reported in the financial statements approximate their fair value.

- 46.4.1** In accordance with the requirements of IFRS 13 Fair value measurement, the Company classifies its long term investments in terms of following fair value hierarchy:

Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Fair value measurements using inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Fair value measurements using Inputs for assets or liability that are not based on observable market data (i.e. unobservable inputs).

Details of the Company's long term investments in terms of fair value hierarchy, explained above, at September 30, 2025 is as follows:

| | Level 1 | Level 2 | Level 3 |
|---------------------------|----------------------------------|------------------|----------------|
| | ----- (Rupees in thousand) ----- | | |
| Long-term investments | 399,191 | - | - |
| Short-term investments | - | 7,258,171 | - |
| September 30, 2025 | 399,191 | 7,258,171 | - |
| September 30, 2024 | 200,233 | 1,087,889 | - |

46.5 Capital risk management

The Company's objective when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, issue new shares and take other measures commensuration to the circumstances. The Company finances its expansions projects through equity, borrowings and management of its working capital with a view to maintain an appropriate mix between various sources of finance to minimize risk and maximize profitability.

The Company monitors capital using a gearing ratio, which is net debt divided by total shareholders equity plus net debt. Net debt is calculated as total loans and borrowings including any finance cost thereon, less cash and bank balances. The Company's strategy is to maintain leveraged gearing. The gearing ratios as at September 30, 2025 are as follows:

| | 2025 | 2024 |
|------------------------|----------------------|--------------------|
| | (Rupees in thousand) | |

چیئر میں جائزہ رپورٹ

یا مر میرے لیے اعزاز کی بات ہے کہ میں العباس شوگر میل میڈ کی کارکردگی کے بارے میں یہ جائزہ رپورٹ برائے سال 30 ستمبر 2025 پیش کر رہا ہوں۔ یہ رپورٹ ہماری اہم کامیابیوں کو اجاگر کرتی ہے اور اس بات پر وضیعیت الی ہے کہ کس طرح بورڈ آف ڈائریکٹرز نے انتظامیہ کو تمام استیک ہولڈرز کے مفادات کے حصول کے لیے موثر اقدامات اٹھانے کی جانب اہم رہنمائی کی۔

پاکستان کی معیشت کو اس سال شدید چیلنجز کا سامنا کرنا پڑا جن میں سیالب کے دیر پا اثرات اور بلند افراط از رشامل ہیں۔ اس کے باوجود بھائی کی حوصلہ افزاء عملات نمایاں ہیں اور مستحکم حکومتی نگرانی کے تحت زر مبادلہ کی شرح میں استحکام آیا ہے۔ افراط از میں کمی کے ساتھ ساتھ شرح سود میں بھی اعتدال پیدا ہوا ہے اور سیاسی غیر یقینی بتدریج کم ہو رہی ہے۔ یہ عوامل کا رو باری سرگرمیوں کے لیے زیادہ پائیدار پیش گوئی کی بنیاد پر اہم کرتے ہیں۔

اسی تاثر میں العباس شوگر میل میڈ نے زبردست منافع حاصل کیا جو ہمارے چیف ایگزیکٹو آفیسر کی دانشمندانہ قیادت کا واضح ثبوت ہے۔ ان کی دوراندیش حکمت عملی اور بروقت درست فیصلوں نے نہ صرف معاشری اتار چڑھاؤ میں درست سمت متعین کی بلکہ موقع سے بھر پورا کندہ اٹھایا جس سے پورے سال آپریشن کے دوران کمپنی کی کارکردگی میں نمایاں بہتری ہوئی ہے۔ اسی طرح ان کی یہ کاوشیں بھی انتہائی قبل تعریف ہیں جو انہوں نے مثالی کارپوریٹ گورننس کو فروغ دینے میں کیں جس نے ہمارے تمام آپریشنز میں دیانت، پیشورانہ مہارت اور جوابدی کی ثقافت کو پروان چڑھا یا ہے۔

مستقبل کے حوالے سے ہم پر امید ہیں کہ موجودہ چیف ایگزیکٹو کی مسلسل رہنمائی میں کمپنی مارکیٹنگ کے مشکل حالات میں بھی قابل ذکر منافع برقرار رکھنے کی صلاحیت رکھتی ہے۔ ہماری ترجیحات کا مرکز جدت، کارکردگی اور مارکیٹ کے حوالے سے العباس شوگر میل میڈ کو پاکستان کا نمایاں ترین ریفارنیڈ شوگر اور میکنول پر وڈیو سر بنا ہے۔

اللہ تعالیٰ کے فضل و کرم سے کی جانب سے Management Association of Pakistan کا اعزاز آپ کی کمپنی کو گاتار چھٹی مرتبہ دیا گیا ہے یہ باوقار اعزاز شوگر انڈسٹری میں اعلیٰ کارپوریٹ معیار اور بہترین گورننس کے لیے ہماری مسلسل کوششوں کی تصدیق کرتا ہے۔

بورڈ نے زیر جائزہ سال کے لیے اپنی سالانہ خود احتسابی کو عمل مکمل کیا جس کے نتیجے میں یہ بات سامنے آئی کہ بورڈ اور اسکی کمپنیوں کی کارکردگی قبل اور بہترین طریقہ کارکے مطابق ہے۔

ہمارا آزاد ادارہ آٹ ڈیپارٹمنٹ جو رسمک بیڈ طریقہ کارپریتم ہے آپریشنز کی نگرانی میں بیادی کردار ادا کرتا رہتا ہے۔ اس ڈیپارٹمنٹ کی سماںی رپورٹس کا بورڈ کی آڈٹ کمیٹی کی جانب سے تفصیلی جائزہ لیا جاتا ہے جس سے بہتری کے موقع کی بروقت نشاندہی ممکن ہوتی ہے اور اہم ترجیحات پر توجہ مرکوز کی جاتی ہے۔ یہ منظم طریقہ کارہماری رسمک میں ہے اور عمل شفافیت کو مزید مضبوط کرتا ہے

اطہار شکر

بورڈ اپنے معزز ممبر ان، پر خلوص انتظامیہ و ملازمین میں کوان کے ثابت قدمی اور محنت کے لیے تہہ دل سے خراج ٹھسین پیش کرتا ہے۔ مزید برآں، بورڈ تمام اسٹیک ہو لڑ رز، بشمول مالیاتی اداروں، کاروباری شرکت داروں، صارفین، بیکرزا اور دیگر کی طرف سے فراہم کردہ انمول مدد، رہنمائی اور تعاون کا اعتراف کرتا ہے جس کی بدولت کمپنی پہلے سے زیادہ ہر جہت میں مشتمل ہوئی ہے۔

اِنتہنول کا شعبہ

2025 کے لیے پاکستان کی اِنتہنول انڈسٹری کا مستقبل قریب کا منظر نامہ بڑا دشوار دکھائی دیتا ہے جہاں رسد کی بڑھتی ہوئی پابندیاں اور شدید مسابقاتی پیداوار اور مارکیٹ میں توسعہ میں بڑی رکاوٹ بن سکتی ہیں۔ اہم چینجز میں اعلیٰ میعار کا شیرہ، جو ایک بنیادی خام مال ہے کی فراہمی میں بڑھتی ہوئی مشکلات شامل ہیں جو گنے کی کم پیداوار کے باعث و متابی میں کمی سے جڑی ہوئی ہیں۔ اس کے علاوہ بڑے شیرہ کنندگان خود اِنتہنول کی پیداوار کی جانب منتقل ہو رہے ہیں جبکہ اس سال دونئے اداروں کی شمولیت نے مقامی مارکیٹ میں مقابلہ مزید بڑھا دیا ہے جس سے مسابقت میں اضافہ اور خام مال کے اخراجات کا دباؤ مزید بڑھ گیا ہے۔

جون 2025 سے یورپی یونین کی کی جانب سے پاکستان کو GSP+ سے ہٹانے اور ٹیف میں اضافے جیسے عوامل اس دباؤ کو مزید بڑھا رہے ہیں جس کے باعث یہ اہم مارکیٹ شدید متاثر ہوئی ہے۔ مزید برآں امریکی ڈالر کے مقابلے میں پاکستانی روپے کی مضبوطی اگرچہ ملکی معیشت کے لیے مفید ہے لیکن بآمدات کے حوالے سے اس امر نے اس کے منافع کی شرح کو کم کر دیا ہے جس کے باعث زر مبالغہ سے حاصل ہونے والے فوائد کم ہو گئے ہیں۔ کیونکہ یہ پہلا مالی سال ہے جس میں ملکی برآمدی فرخت پر پہلے سے لاگوںکیس 1 فیصد کے ساتھ ساتھ مزید 1 فیصد حتمی ٹکس عائد کیا گیا ہے جس کے نتیجے میں برآمدی آمدنی مزید کم ہو جائے گی۔

ان چینجز سے نہنے میں ہمارے چیف ایگزیکٹو فیسر کی، آپریشنل بہتری کے لئے بالخصوص شیرہ کی سپلائی چین کو مضبوط بنانے میں، پختہ واپسی نمایاں ہے۔ نومبر 2025 کے کرشنگ سینزن سے قبل مسابقتی زخوں پر درکار زیادہ سے زیادہ پیشگی طور پر محفوظ کر کے جس سے شیرہ کی قلت کے خطرات کم ہونے اور زیادہ قابل اعتماد پیداوار کی منصوبہ بنندی اور لاگت میں پیش بینی ممکن ہوئی ہے۔

اگرچہ اس شبیعہ کا سفر بلاشبہ دشوار ہے تاہم ہماری پیشگی اور موثر حکمت عملی ہمیں ان چینجز کا مقابلہ کرنے اور ویسا یہ ڈیشمیون میں ترقی کے موقع سے فائدہ اٹھانے کے قابل بناتی ہے۔

دیگر قابل ذکر شعبہ جات

زیرجاائزہ مدت کے دوران ہماری بلک اسٹوریچ ٹینک ٹرمنل کی ترکیم و آرکش کا کام کا میابی کے ساتھ کمل کر لیا گیا ہے جس کے نتیجے میں کمپنی کو دستیاب گنجائش میں اضافہ، نئے کرایہ داروں کو لیز پر دینے اور کم استعمال ہونے والے اثانوں کو موثر طور پر بروئے کار لانے کا موقع ملا ہے۔ طویل وقٹے کے بعد یہ شعبہ مجموعی منافع میں دوبارہ ثبت کردار ادا کرنے کے لیے تیار ہے جس سے آمدنی میں تنویر اور آپریشنل کارکردگی کو تقویت ملے گی۔

موجودہ کاروباری حالات کی وجہ سے کیمیکل، الائیٹ اور پاور کے شبے میں پیداوار کو عارضی طور پر معطل کر دیا گیا ہے ان حالات میں نمایاں بہتری آنے کے بعد آپریشن دوبارہ شروع کرنے کے فیصلے پر نظر ثانی کی جائے گی نیز کمپنی پیداوار کو دوبارہ شروع کرنے کے لیے صحیح وقت کا تعین کرنے کے لیے مارکیٹ کے رجحانات اور معاشری اعشار یوں کا جائزہ لے گی، بہترین پیداواری کا کردار گی اور منافع کو یقینی بنائے گی۔

مجموعی طور پر

ہماری انتظامی ٹیم موجودہ معاشری منظر نامے میں پائی جانے والی غیر یقینی صورتحال سے نہنے کے لیے صلاحیت اور تجربہ رکھتی ہے۔ حکمت عملی میں پک کو بنیاد بناتے ہوئے ہم نے ایسے موافق اقدامات کا ایک جامع نظام نافذ کیا ہے جو درپاڑتی کو فروغ دینے کے کیمپنی کی مرتب کیے گئے ہیں۔ ان اقدامات کا باقاعدگی سے جائزہ لیا جاتا ہے تاکہ بڑھتے ہوئے اخراجات اور بدلتی ہوئی ماکیٹ کی صورتحال جیسے دباؤ کا موثر طور پر مقابلہ کیا جاسکے اور پائیدار کامیابی کی سمت میں ہمارے سفر کو مزید تیز کیا جاسکے۔

معاشری اتارچڑھاؤ کے اس دور میں ہماری قیادت کی پھرتی اور پیشگی حکمت عملی بہترین آپریشنل کارکردگی کو برقرار رکھنے اور تو تیکی اہداف کے حصول میں ناگزیر ثابت ہو گی۔ ہم کمپنی کے مستقبل کے حوالے سے پرمید ہیں کہ آئندہ برسوں میں آمدنی، منافع اور لیکوڈ ٹیئر میں مزید نمایاں بہتری کی توقع رکھتے ہیں۔ اس اعتماد کی بنیاد مشکلات پر قابو پانے میں ہماری ثابت شدہ صلاحیت اور مضبوط مالی بنیاد پر ہے جو ہماری طویل المدى استحکام اور ترقی کو سہارا دیتی ہے۔

شیرہ کی پیداوار برادرست چینی کی پیداوار سے مسلک ہے لہذا چینی کی پیداوار میں کمی شیرہ کی دستیابی کو بھی متاثر کرتی ہے۔ اس صورت حال نے ڈھندری کمپنیوں کے درمیان مسابقت کو تیز کر دیا۔ مارکیٹ میں رسد میں کمی اور قیتوں میں اضافہ ہوا تاہم آپ کی کمپنی کے چیف ایگزیکٹو آفیسر نے مسابقتی شرح پر کافی مقدار میں شیرہ حاصل کر کے ایک قبل تعریف کارنامہ انجام دیا ہے۔

آپ کی کمپنی کی انتظامیہ نے زیادہ منافع بخش طریقوں پر توجہ مرکوز کر کے ایک تھنول کے سلسلہ کی خاص طور پر ڈرم اور آئی ایس اور کمی فروخت پر زیادہ ذرودیا ہے جبکہ پچھلے سال کے مقابلے میں اس سال بالکل سیلز پر انحصار کو قدرے کم کیا گیا۔

دیگر قابل ذکر شعبہ جات:

ایندھن اور بھلی کی بڑھتی ہوئی قیتوں کے باعث کیمیکل، الائیکٹریک اور پاور ڈویژن میں آپ پریشنز کو حکمت عملی کے تحت معطل رکھا گیا جس سے سرمائے کے تحفظ اور وسائل کو دیگر زیادہ منافع بخش سرگرمیوں کی جانب منتقل کرنے کا موقع ملا۔

ہماری اسٹورنیکٹ ٹرمنل کشمپلک بانڈ گودام کے طور پر کام کرنے کے لیے لائسنس یافتہ ہے اور بالکل مائع کارگو کو بینڈل کرنے کیسا تھسا تھ خطرناک اشیاء کو ذخیرہ کرنے کی اجازت ہے جس میں ایک تھنول کے ساتھ ساتھ دیگر پہلوں میں مصنوعات بھی شامل ہیں۔ آپ کی کمپنی کا تیار کردہ ایک تھنول بھی اس ٹرمنل پر ذخیرہ کیا گیا ہے تاکہ برآمدی آرڈر رز کی بروقت ترسیل کو آسان اور مکمل بنایا جاسکے۔ نیز ترینیں اور ایکیش کے کاموں کی تکمیل کے بعد اس کی استعداد کے استعمال میں بذریعہ اضافہ ہوا ہے جس سے بینڈنگ کی صلاحیت اور آپریشنل پلک میں بہتری آئی ہے۔

زیر جائزہ سال کے دوران ان شعبوں میں 42.306 میلین روپے کا نقصان ہوا جبکہ گذشتہ سال یہ نقصان 26.008 میلین روپے کا نقصان تھا۔

مستقبل کے امکانات

شوگر کا شعبہ

آنے والے سال 2025-2026 میں پاکستان کی شوگر انڈسٹری کا منظر نامہ بڑا امید افزاء ہے خاص طور پر ایک تھنول جیسے دیجیٹل سیکٹر میں ترقی کے امکانات بہت روشن ہیں۔ تاہم مجموعی طور پر ان صنعتوں کی کارکردگی کا انحصار موئی حالات، معاون حکومتی پالیسیوں اور وسائل کے انتظام پر ہو گا کیونکہ یہ عوامل صنعت کی بقا اور طویل المدى پائیدار منافع کے لیے بہت ضروری ہوتے ہیں۔

گنے کے رقبہ اور پیداوار میں ضافے کی وجہ سے چینی کی پیداوار میں تقریباً 13.8 فیصد اضافہ متوقع ہے جس سے چینی کی کل پیداوار 6.6 میلین ٹن تک پہنچنے کی توقع ہے۔

گنے کی نصل کے ابتدائی سردوے کے مطابق اس خطے میں گنے کی پیداوار میں معمولی اضافے کا امکان ہے۔ مستقبل قریب کے تناظر میں گنے کی کاشت کے بڑھتے ہوئے علاقے کی بیاند پر تو قلع ہے کی آنے والے سالوں میں طلب و رسد میں بہتر توازن آئے گا جس کی بدولت نہ صرف اس پیداوار کو ملکی ضروریات پوری کرنے میں مدد ملے گی بلکہ مکانہ طور پر اضافی ذخیرہ حاصل ہو گا جو تمام اسٹیک ہولڈرز کے لیے مساوی موقع پیدا کر سکتا ہے۔ اس حوالے سے کمپنی گناہ پیدا کرنے والے علاقوں کو ترقی دینے پر توجہ مرکوز کر رہی ہے جس کا مقصد شکر حصوں کی شرح کو بڑھانا اور مجموعی طور پر پیداوار کو بڑھانا ہے۔

زیر جائزہ مدت کے دوران شوگر کے شعبے نے اعلیٰ کارکردگی کا مظاہرہ کرتے ہوئے کمپنی کی آمدی میں 54 فیصد کا اضافہ حاصل کیا جو سازگار مارکیٹ حالات کے باعث فروخت کے بلند جنم سے ممکن ہوا۔ نیز مالی لامگت میں 53.8 فیصد کی نمایاں کمی واقع ہوئی جس کی وجہ سے ڈسکاؤنٹ ریٹ اور ہبھکیش فلو رہے جنہوں نے نقدی کی دستیابی کی صورتحال بہت بہتر کیا۔

ہماری شکر کی قیمت کی حکمت عملی طلب و رسید کے بنیادی اصولوں پر ہے جس کے تحت غیر مستحکم ماحول میں مسابقتی حیثیت کو لینی بنایا جاتا ہے۔ اگرچہ یہ عوامل اور مالی ذمہ داری میں کمی نے آپریشنل رفتار کو سہارا دیتا ہم اس شعبے کی آمدی میں بنیادی اضافہ طویل عرصے سے زیر التواء برآمدی کرایہ جاتی رعایت کی وصولی کے باعث ہوا۔

| 1,593,956 | 1,081,375 | منافع بعد از ٹکیس |

اتھنوں کے شعبے میں بعد از ٹکیس منافع میں 32.12 فیصد کی کمی واقع ہوئی جس کی بنیادی وجہ اتھنوں کی اوپر فروخت میں کمی کے ساتھ ساتھ خام مال کی اوپر قیمت میں اضافہ تھی۔ نیز اس کی میں بیرونی عوامل کا دباؤ خاص طور پر یورپی یونین کی جانب سے 19 جون 2025 سے پاکستانی اتھنوں کے ٹیرف اور +GSP قیمتوں میں کمی کی ترجیحات کی معطلی نے برآمدی فروخت کی مسابقت کو متاثر کیا اور اہم مارکیٹوں میں ہماری قیمتوں کے رجحان پر منفی اثر ڈالا۔

یہ نتائج خام مال اور یوپلیٹر کی قیتوں میں مسلسل اضافے، رسکی رکاوٹوں، سپلائی چین کے بھاری اخراجات اور جاری ہوش رہا مہنگائی جیسے چینیز کے باوجود حاصل کیے گئے۔

شوگر کا شعبہ :

اس سال صوبائی حکومت نے سیزن 2025-26 کے لیے گنے کی کم از کم امدادی قیمت کا کوئی نوٹیفیکیشن جاری نہیں کیا ہے جس کی بنیادی وجہ IMF کی سفارش پر شوگر کے شعبے کو ڈی ریگولیٹ کرنے کی پالیسی پر عمل ہے۔

ڈائریکٹرز کی جائزہ رپورٹ

شروع اللہ کے نام سے جو نہایت مہربان اور رحم کرنے والا ہے۔ ڈائریکٹرز از خدمت کے ساتھ مالی سال 30 ستمبر 2025 کے مالیاتی بیانیہ بعد اس کی آڈٹر رپورٹ آپ کی خدمت میں پیش کر رہے ہیں۔

معیشت کا جائزہ

زیر جائزہ سال پاکستان کی معاشری بدحالی سے بتارجی، بہتری کی جانب ایک اہم عبوری مرحلے کا سال ثابت ہوا جس میں کہ معیشت میں استحکام کی واضح علامات نظر آئیں اور 2023 کے اوائل میں درپیش تقریبادیواليہ پن کے بھرمان سے کامیابی کے ساتھ نکل آئی۔ اس استحکام کی بنیاد میں بین الاقوامی مالیاتی فنڈ (IMF) کے پروگرام کے تحت متعدد اقدامات کی کامیاب تکمیل پر رہی۔ ملک کے زر بمبالغہ کے ذخیرہ میں نمایاں بہتری نظر آئی جس سے کرنی کے استحکام اور سرمایہ کاروں کے اعتماد کو تقویت ملی۔ مہنگائی جو پہلے بلند سطح پر تھی قابو میں آگئی تاہم حالیہ موسیاتی تغیر کے باعث رسد کے حوالے سے دوبارہ دباو پیدا ہوا ہے نیز وفاقی اور صوبائی سطح پر استحکام پیدا ہوا جس سے سیاسی تسلسل برقرار رہا۔ اس سیاسی تسلسل نے غیر یقینی کی صورت حال میں بہت کمی کی اور مستقبل کی معاشری ترقی کے لیے مضبوط بنیاد فراہم کی تاہم معیشت اب بھی متعدد عوامل مثلاً یورنی دباو، موسیاتی تغیر اور عالمی منڈی میں اجناس کی قیمتوں میں اتارچڑھاؤ کے باعث قدرے دشواری کا شکار ہے۔ لیکن مجموعی طور پر پاکستانی معیشت اب نسبتاً مضبوط بنیادوں پر کھڑی ہے لیکن اس معاشری بدحالی کو ہمہ گیر اور پائیدار بنانے کے لیے متعدد اصلاحات کا تسلسل ناگزیر ہے۔

صنعتی جائزہ:

2024-25 کے دوران پاکستان کی چینی کی صنعت کافی حد تک عدم استحکام کا شکار رہی جس کی بنیادی وجہ ناقص حکومتی کارکردگی، پالیسی میں عدم تسلسل اور غیر میعادی شکر کی مہنگے دامون درآمد جیسے غیر دانشمندانہ اقدامات تھے جس کے باعث مقامی سطح پر رسد پر دباو پڑا اور قیمتوں میں اتارچڑھاؤ پیدا ہوا۔ آبادی میں اضافے اور خوراک و مشروبات کی صنعت سے طلب کے باعث پاکستان میں چینی کی کھپت 6.6 ملین ٹن تک پہنچنے کی توقع ہے۔ اس مدت کے دوران طلب و رسد کے باہمی تعامل کے نتیجے میں مقامی سطح پر اضافہ دیکھنے میں آیا جس کی بدولت بالخصوص سال کے دوسرے حصے میں شکر کی قیمتیں نسبتاً مستحکم رہیں۔

2025-26 میں امریکی مکملہ زراعت (USDA) نے پاکستان میں چینی کی کھپت 6.6 ملین ٹن تک پہنچنے کی توقع ظاہر کی ہے جس کی وجہ آبادی میں اضافہ اور خوراک اور مشروبات کے شعبوں کی صنعتی طلب ہے۔ نیز یہ شرح گذشتہ سال کے مقابلے میں 13.79 فیصد اضافہ ظاہر کرتی ہے۔

مزید یہ کہ آبادی میں اضافے اور فوڈ پر اسی نگیکی بڑھتی ہوئی طلب کی وجہ سے پاکستان میں چینی کی کھپت میں مسلسل اضافے کا امکان ہے۔ مجموعی طور پر چینی کی صنعت کو سخت چیلنجز کا سامنا ہے جیسا کہ گیلو لیٹری دباو اور عالمی قیمتوں میں اتارچڑھاؤ لیکن پھر بھی ایک محتاط اندازے کے مطابق 2025-26 میں مستقبل کا منظراً نامہ بڑا پر امید ہے۔
